

~Main Causes of These Crises~

Infectious Diseases

- less distance between humans and animals
- overpopulation of livestock

Climate Change

- greenhouse gas
- less absorption caused by deforestation

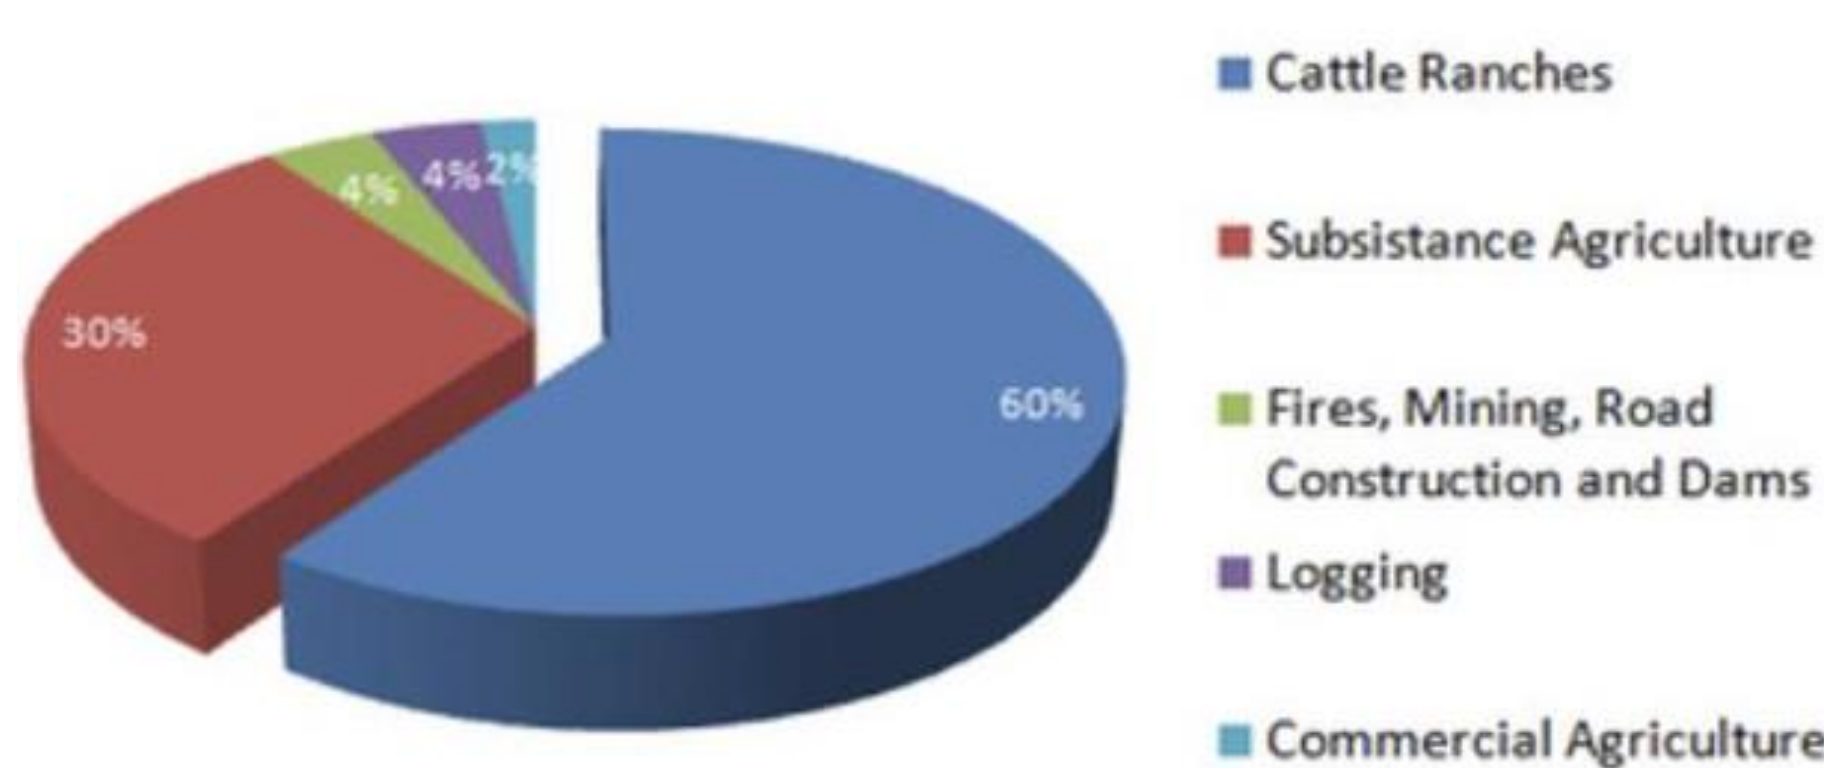

Underlying Factor is **Meat Consumption**

~How meat consumption affects these two crises?~

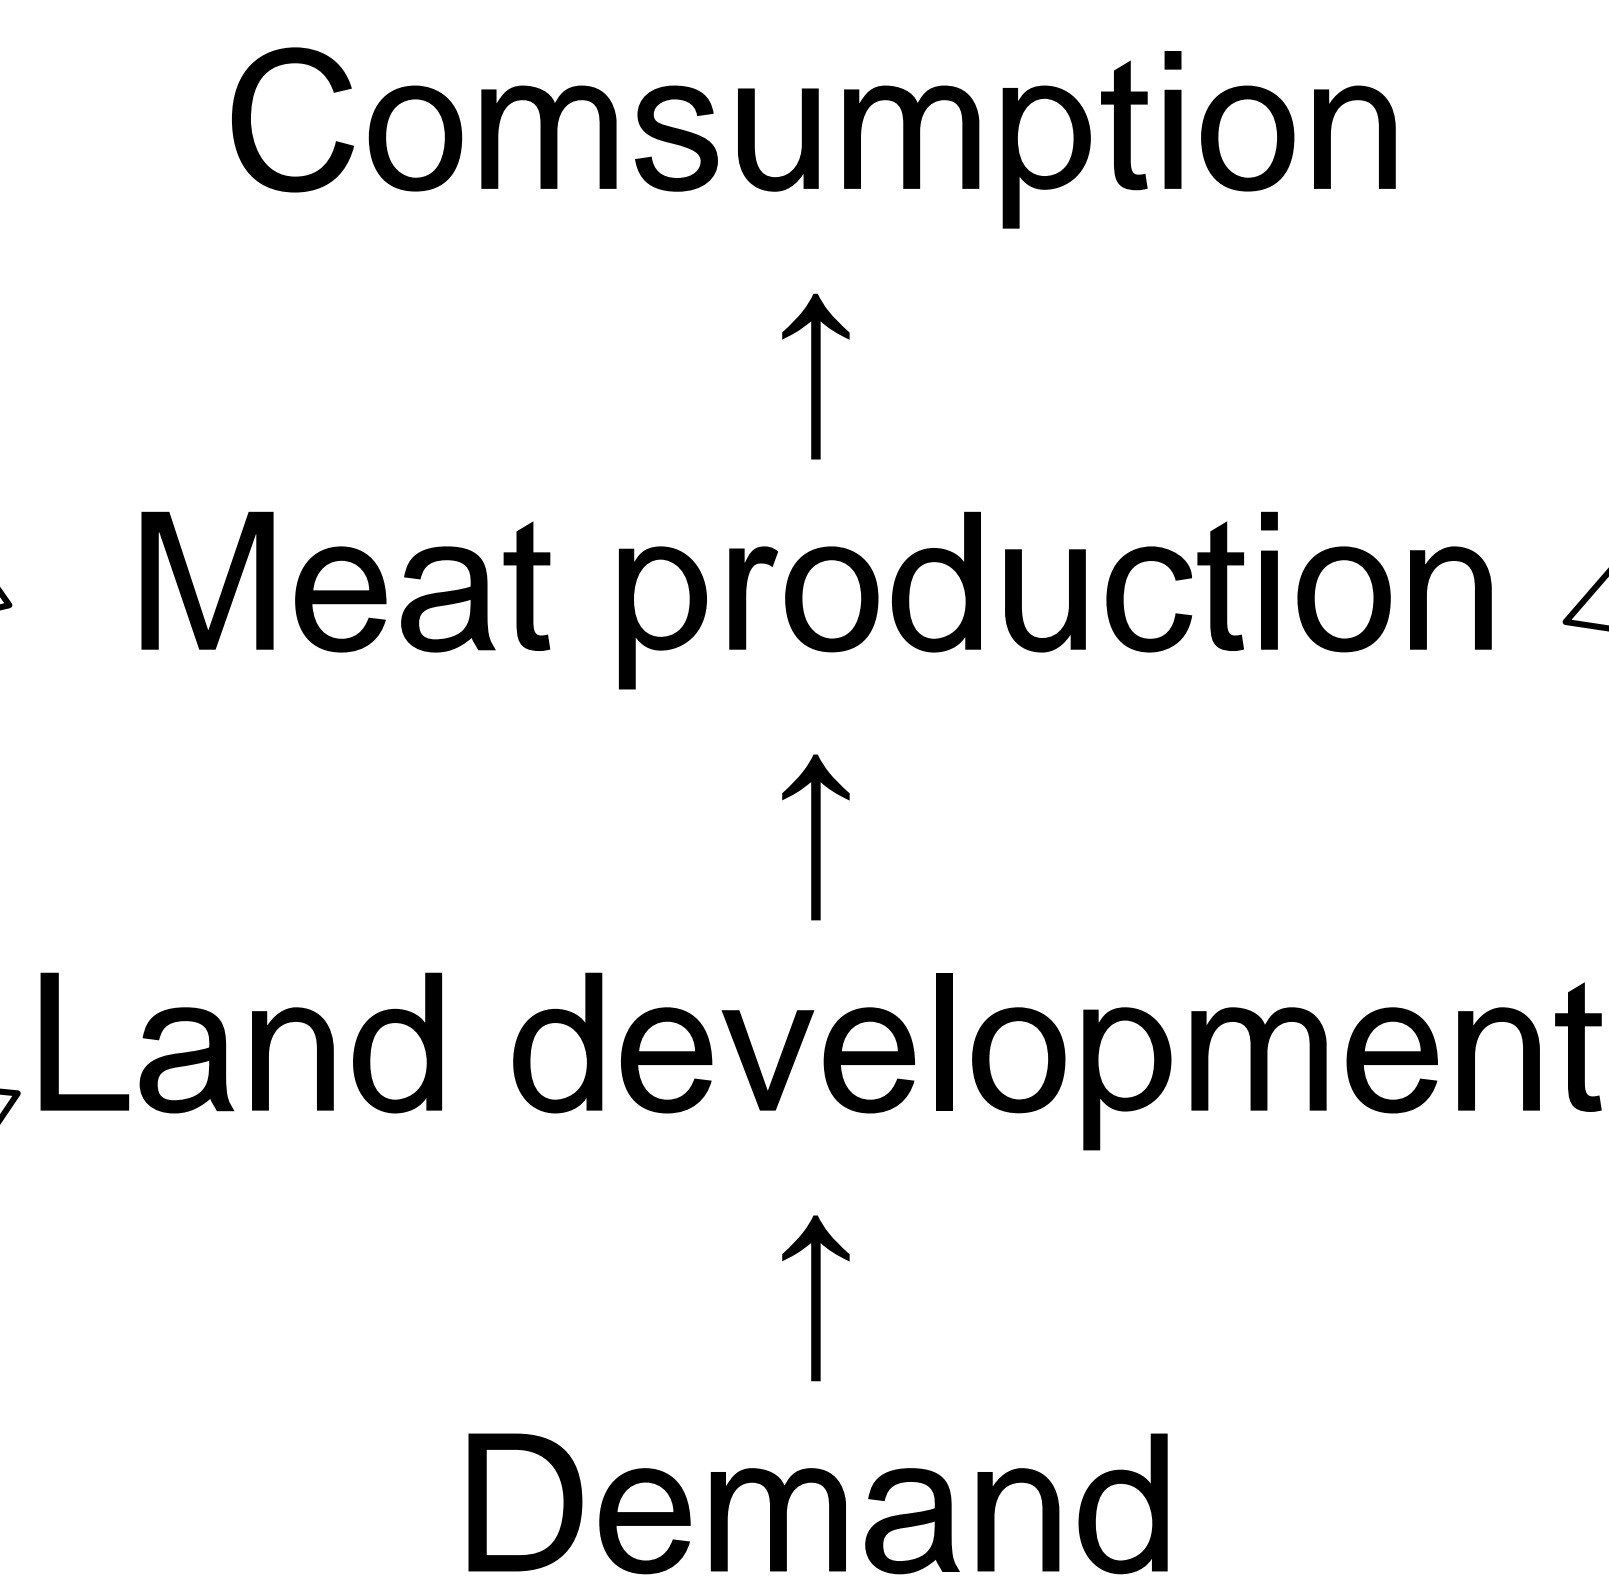

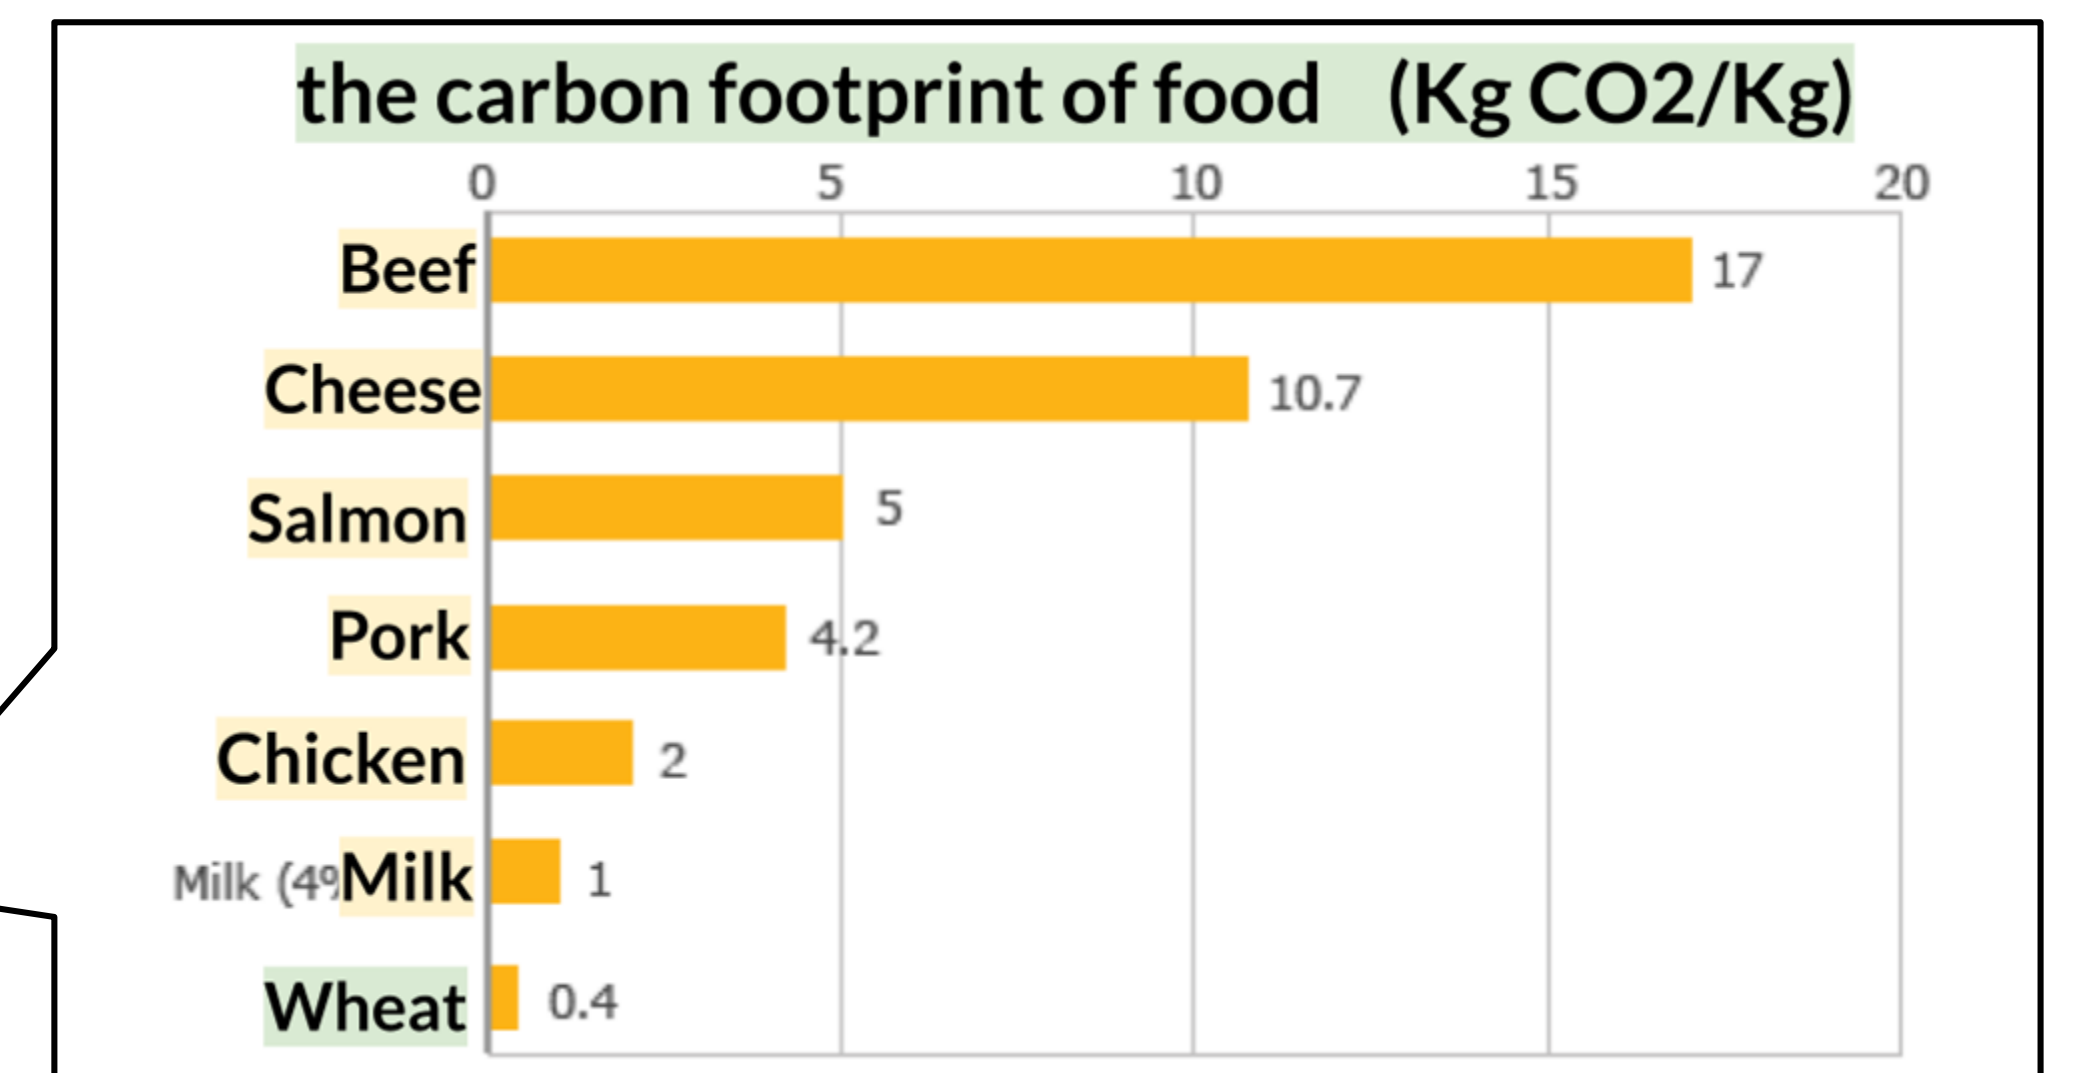

Infectious Diseases

Causes of Deforestation in the Amazon Rainforest

Climate Change

Reduce Eating Meat, Save Our Future

~WHAT WE DID~

Plant-Based Photo Contest

- step1. Distributed a poster to teach above
- step2. Collected photos of "plant-based products you found" and "plant-based products you cooked".

Value

- We could encourage taking actions.
- We could share and explore plant based life.

We collected
25 photos

Shared collected photos to teach plant based life to people who don't know about our idea.

~The Voices of Participants~

- "I learned that we can find plant based products everywhere."
- "I wanna continue this lifestyle because it is good for our health and our future!"

~Conclusion~

Worldwide Problems

climate change, infectious disease

Easy

Enjoyable

Small Actions
