

Education for the future of children

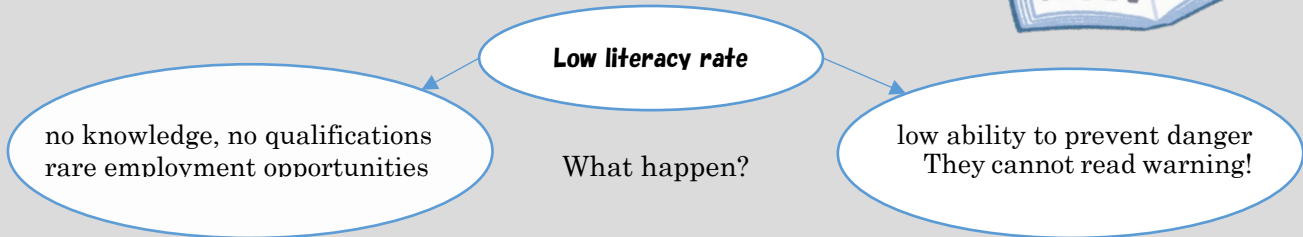

A hard reality of the world: high illiteracy rate in the world

According to UNICEF, 11.5% of children cannot go to school now.

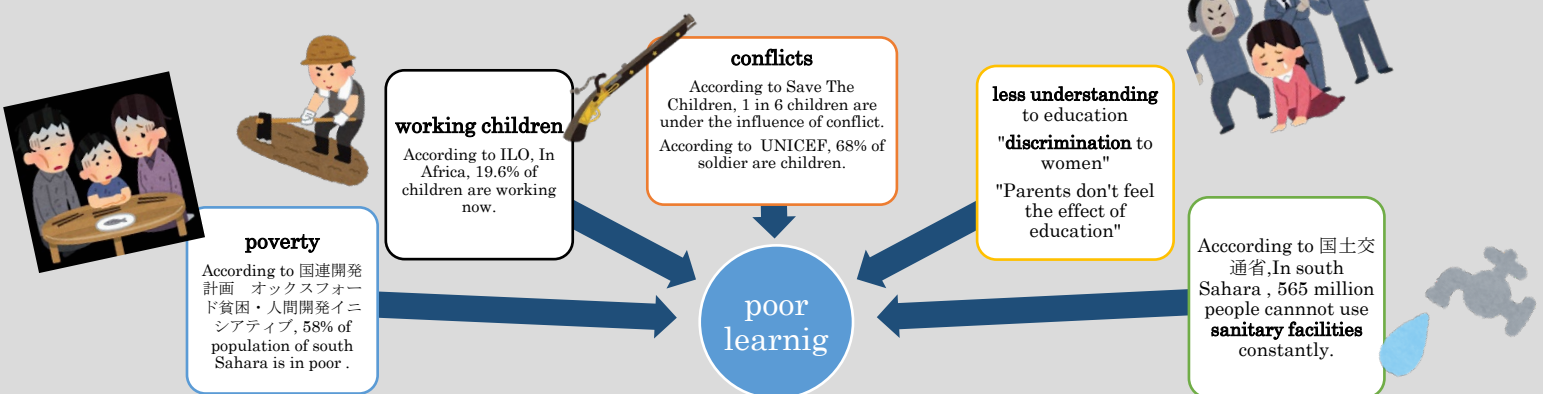

a survey by UNICEF

Literacy rate of the children in the area near the Sahara is less than 50%

*Why can't children go to school? *

*Activities to encourage more education *

↑ World Terakoya Movement

↑ Japan overseas cooperation volunteers.

↑ Children without Borders

*What should we do as high school students? *

- ① recycle of postcards with written mistakes (economical support)
- ② understanding of the importance of education (enlightenment activities)
- ③ a new suggestion: **"It's a small world movement"** by high school students
High school students get together and unite by using SNS, and tackle education problem in the world.
