

# Flood-control measures by Kobe city and its enlightenment activities

W201908 – 2 : Kobe Municipal High School of Science and Technology

## 1. Introduction

Our city Kobe has various kinds of disaster prevention measures, but still has some risks because it is located between the sea and mountains.

So we started a campaign to give its citizens enough knowledge about the risks of disaster and disaster prevention measures.

In this research, we have two purposes.

One is to make the citizens more aware of and interested in the prevention and reduction of disasters.

The other is to take actions to make the city more resistant to disasters.

## 2. The way of research

**Proper flood control**    **No flood control**

## 3. Conclusion

**Picture 1**

**“YOU are the only one who can protect yourself from danger.”**
