

Implementing “Nuclear Disarmament” in the SDGs!! ~Toward a sustainable future~

Soka senior high school

Research

What do we need to do to increase awareness about the nuclear abolition movement?

TPNW Issued on 2021/01/22.

Prohibited everything related to nuclear weapons.

However, Possession countries & Japan

⇒ **NOT Ratified and Signed**

Human Security = It focuses on each individual human being.

⇒ Spread understanding that nuclear weapons are unnecessary.

International public opinions are being made stressing possession countries to prohibit the development, stock, and use of such weapons.

In order to spread Human Security → **Raise the voice of civil society.**

Recently, role of civil society has increased.

Suggestion

to implement a new goal, “decrease nuclear weapons” as the 18th place in SDGs.

① Their purpose is the same.

to build a world in which everyone is assured freedom from fear, from want, and to live in dignity.

③ Nuclear weapons could destroy the earth and ruin all SDGs.

It's necessary to abolish nuclear weapons to achieve SDGs.

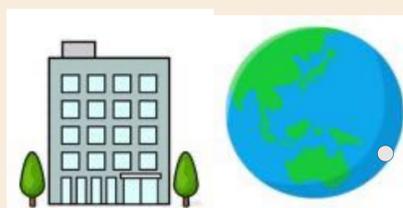

② About 11 trillion yen is used for nuclear weapons every year.

In a world without nuclear weapons, we could

- eliminate poverty for one year
- expand medical sources
- diminish the risks of environmental destruction & famine
- protect women's rights

The recognition for the issues of nuclear weapons to be spread into the civil society

What can we do for nuclear disarmament?
