

Stop discrimination by learning about radiation through Active Learning !

Konan Boys' High School

1. Discrimination against Fukushima evacuees in 2011

Cases: **130** from 東日本大震災に関する法務省の人権擁護機関の取り組み状況について

Example

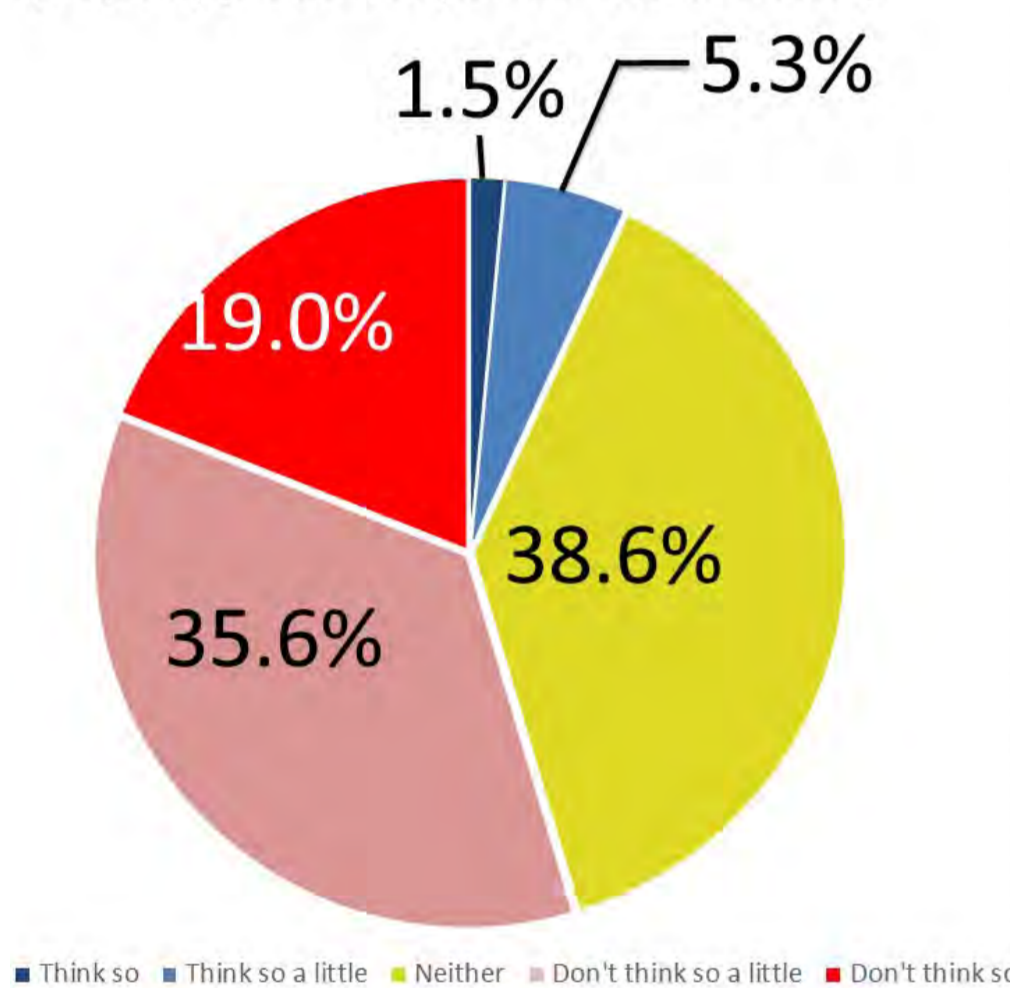

- Being nicknamed 'Radiation!'
- Denial of refueling and working
- Throwing stones at cars that have Fukushima numbers

2. Why do they happen?

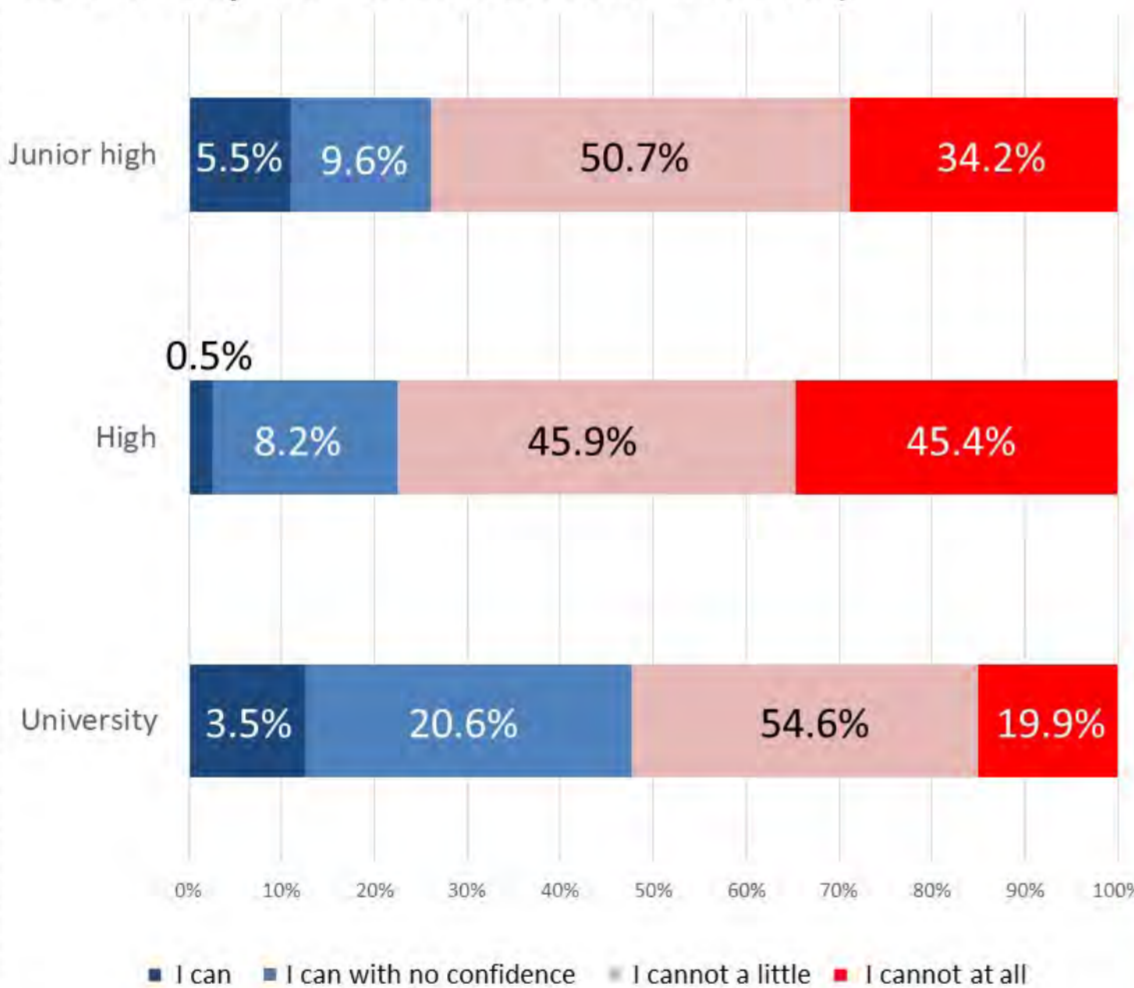

Reason ①

A poor understanding of Fukushima and radiation

People in Tokyo who think they understand the present situation of Fukushima properly (1000 Tokyo citizens in 2016)

Can you explain about different types and the nature of radiation? (Junior high 73, high 196, university 282 in Fukushima in 2018)

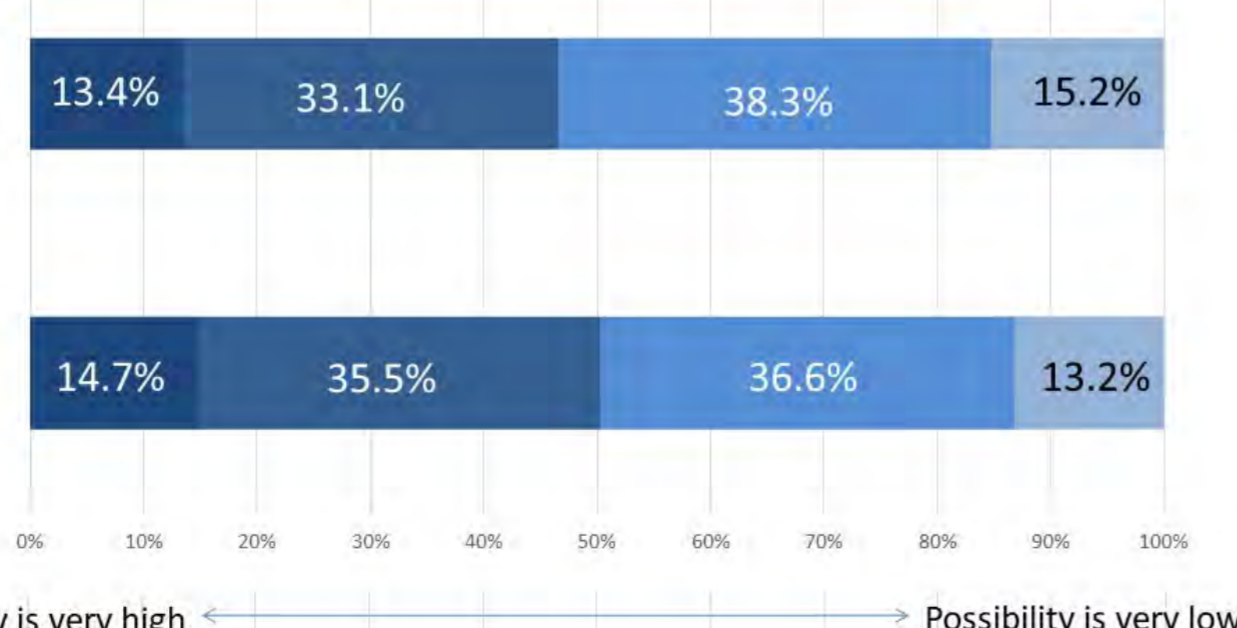

Reason ②

People easily believe fake news.

MIC's research: **76%** of people believe or couldn't find fake news about COVID-19

By the effect of current radiation exposure, what is the likelihood of health problems (ex. cancer) happening to people in Fukushima?

By the effect of current radiation exposure, what is the likelihood of health problems happening to the next generation?

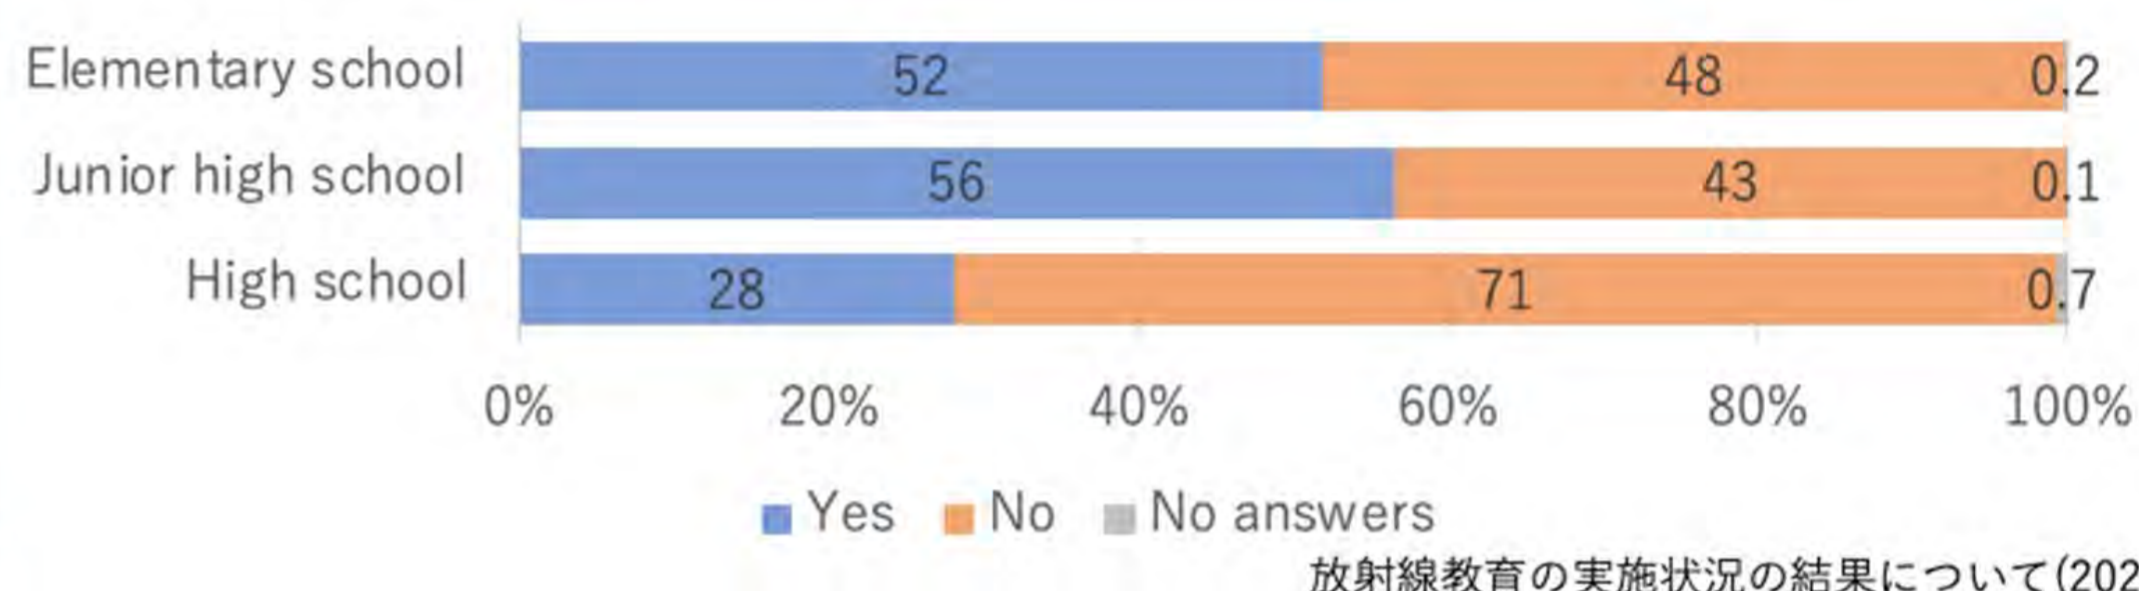

3. Government Measures

Distribute pamphlets on radiation nationwide

Problem: **Low awareness of the pamphlets!!**

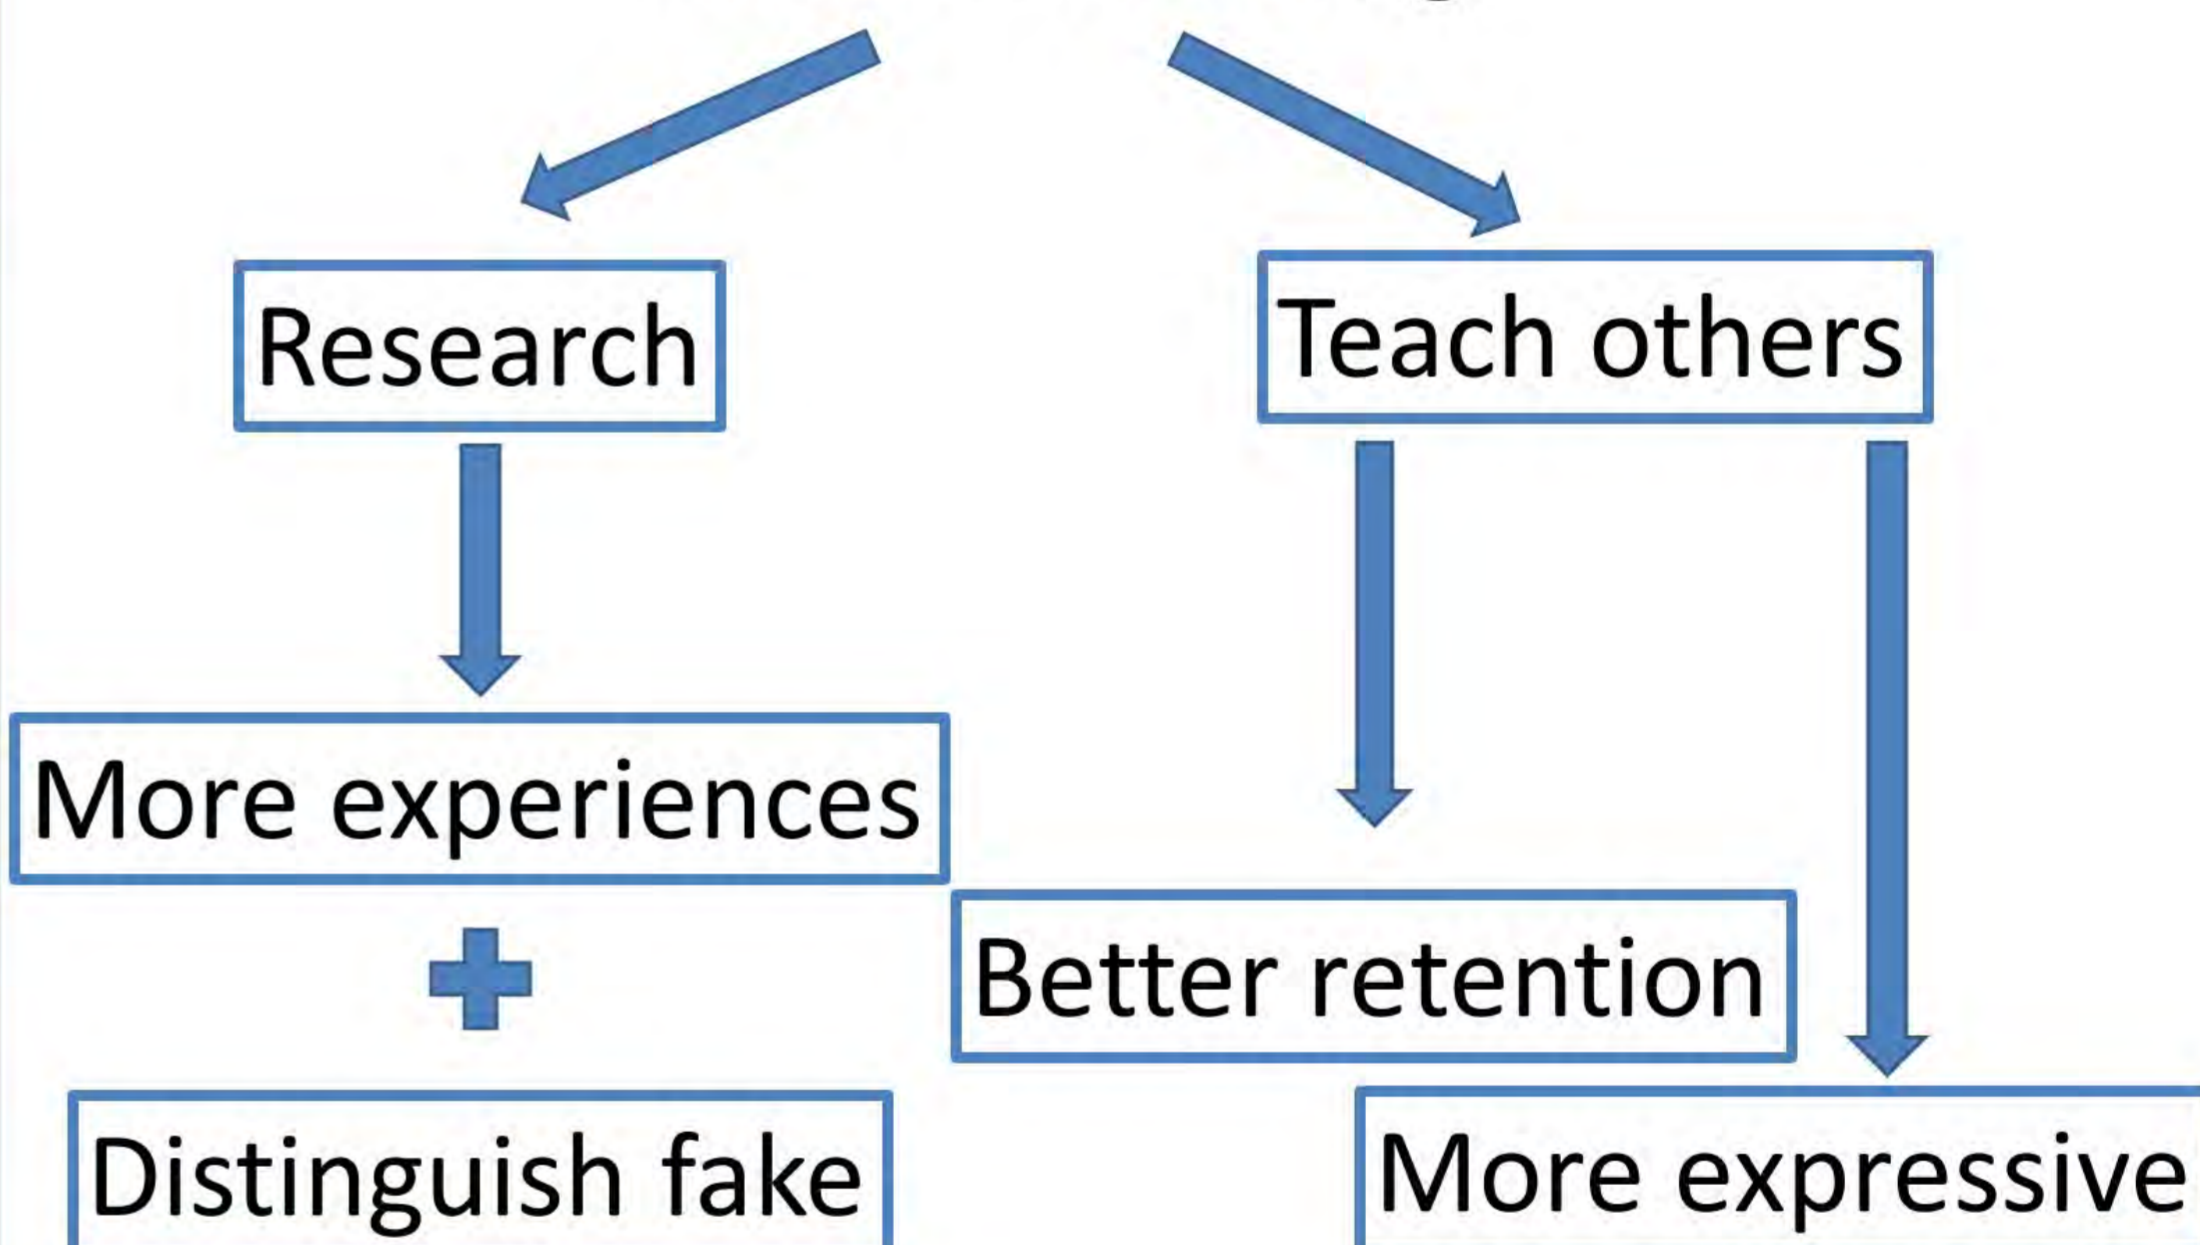

DO YOU UTILIZE THE PAMPHLETS ON RADIATION?

(RESPONDENT, ELEMENTARY :1673, JUNIOR HIGH : 1377, HIGH : 1240)

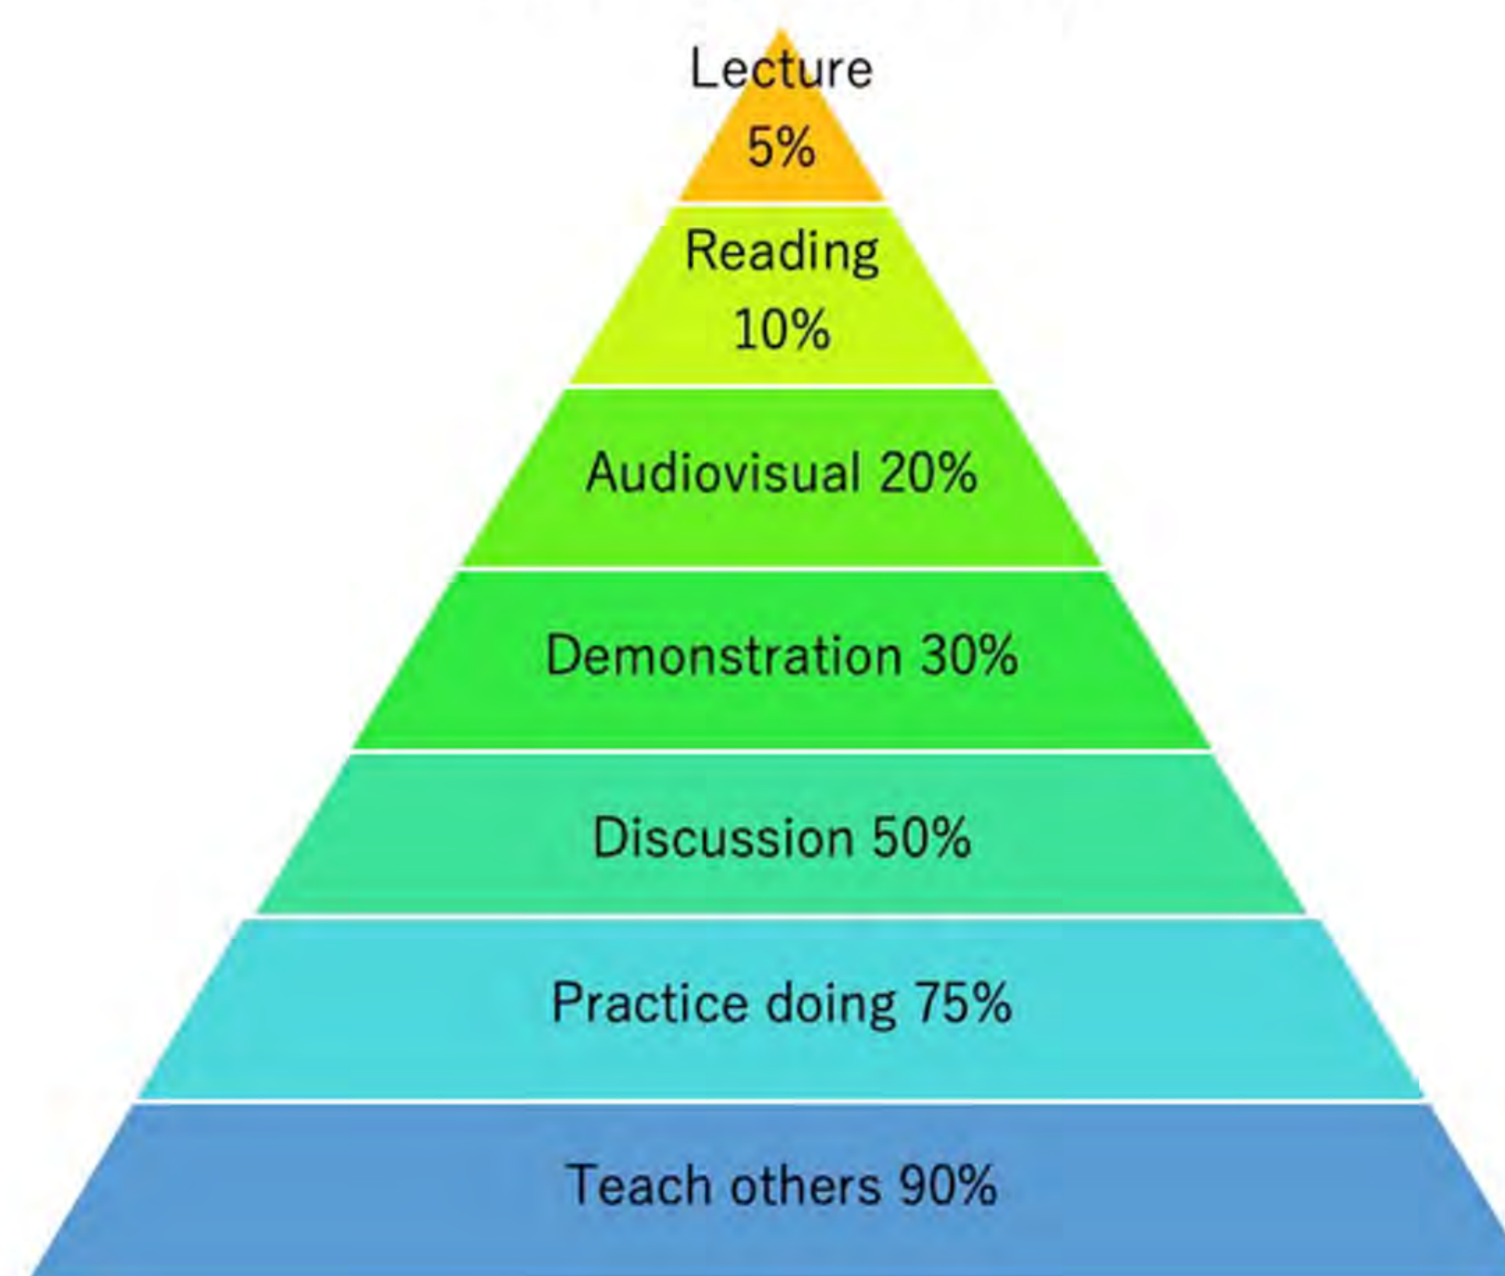

4. Improvement through Active Learning with the pamphlet

Active Learning

Learning Pyramid
