

Lemongrass vs Mosquito

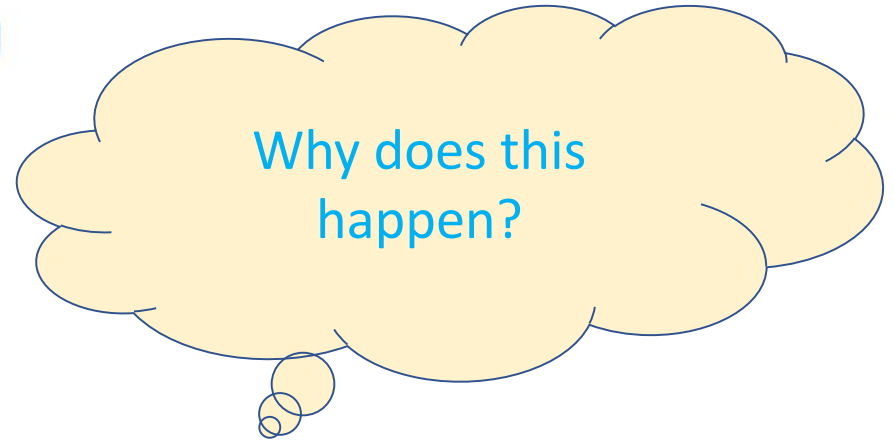

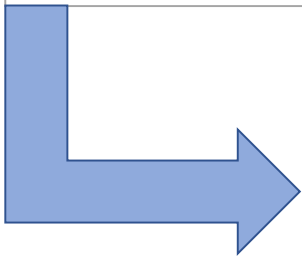

Wakayama Shin-ai High School

★ Let's reduce the
number of children who
die under the age of 5!

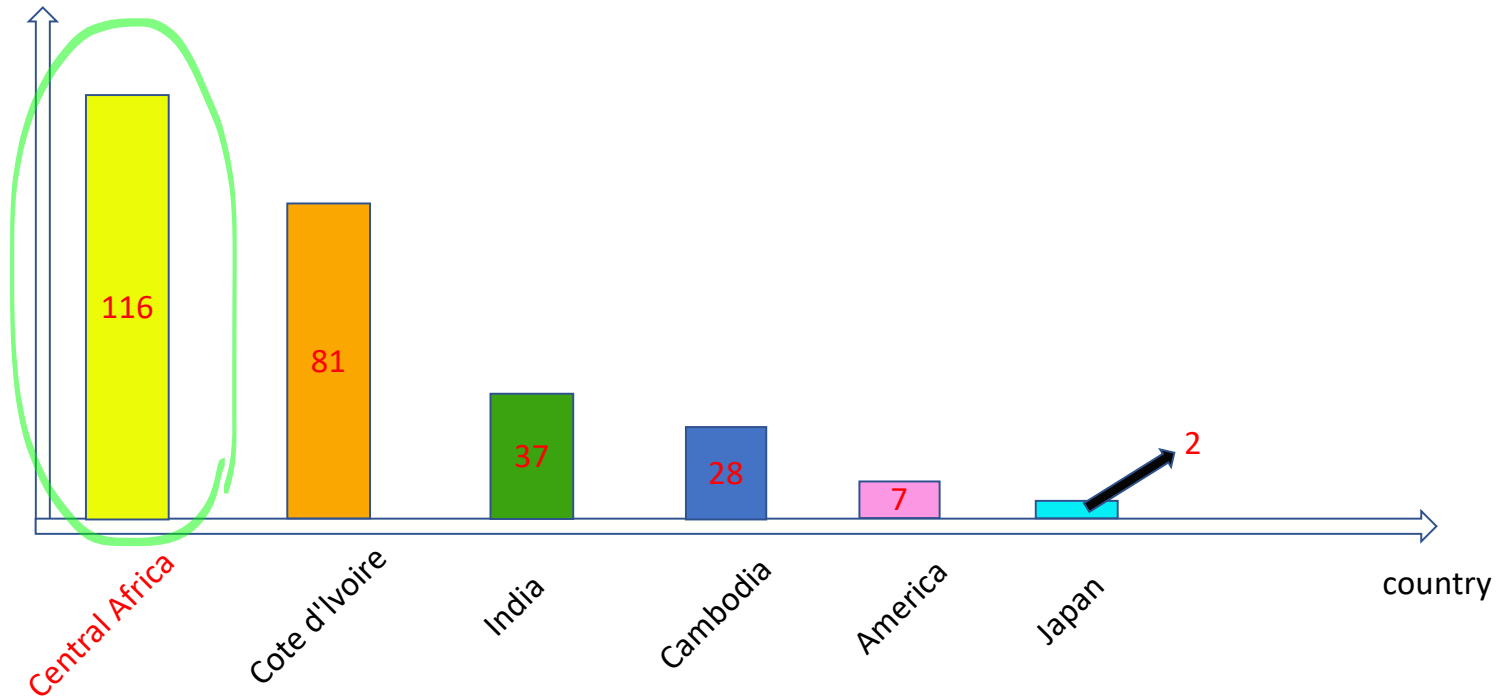

5.2 million children die under the age of 5 every year.

Most Japanese children don't die under the age of 5 .

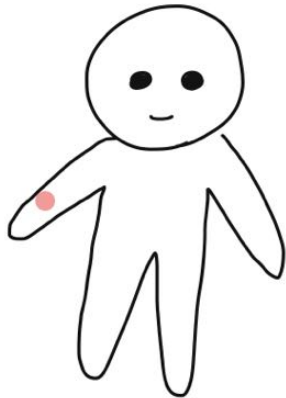

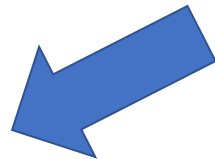

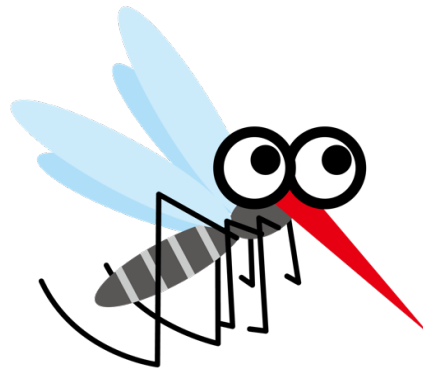

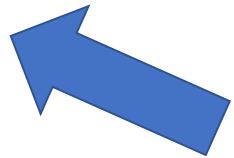

The number of children who die under the age of 5 years old

< the number of children who die under the age of 5 years old per 1000 children in a year >

MALARIA

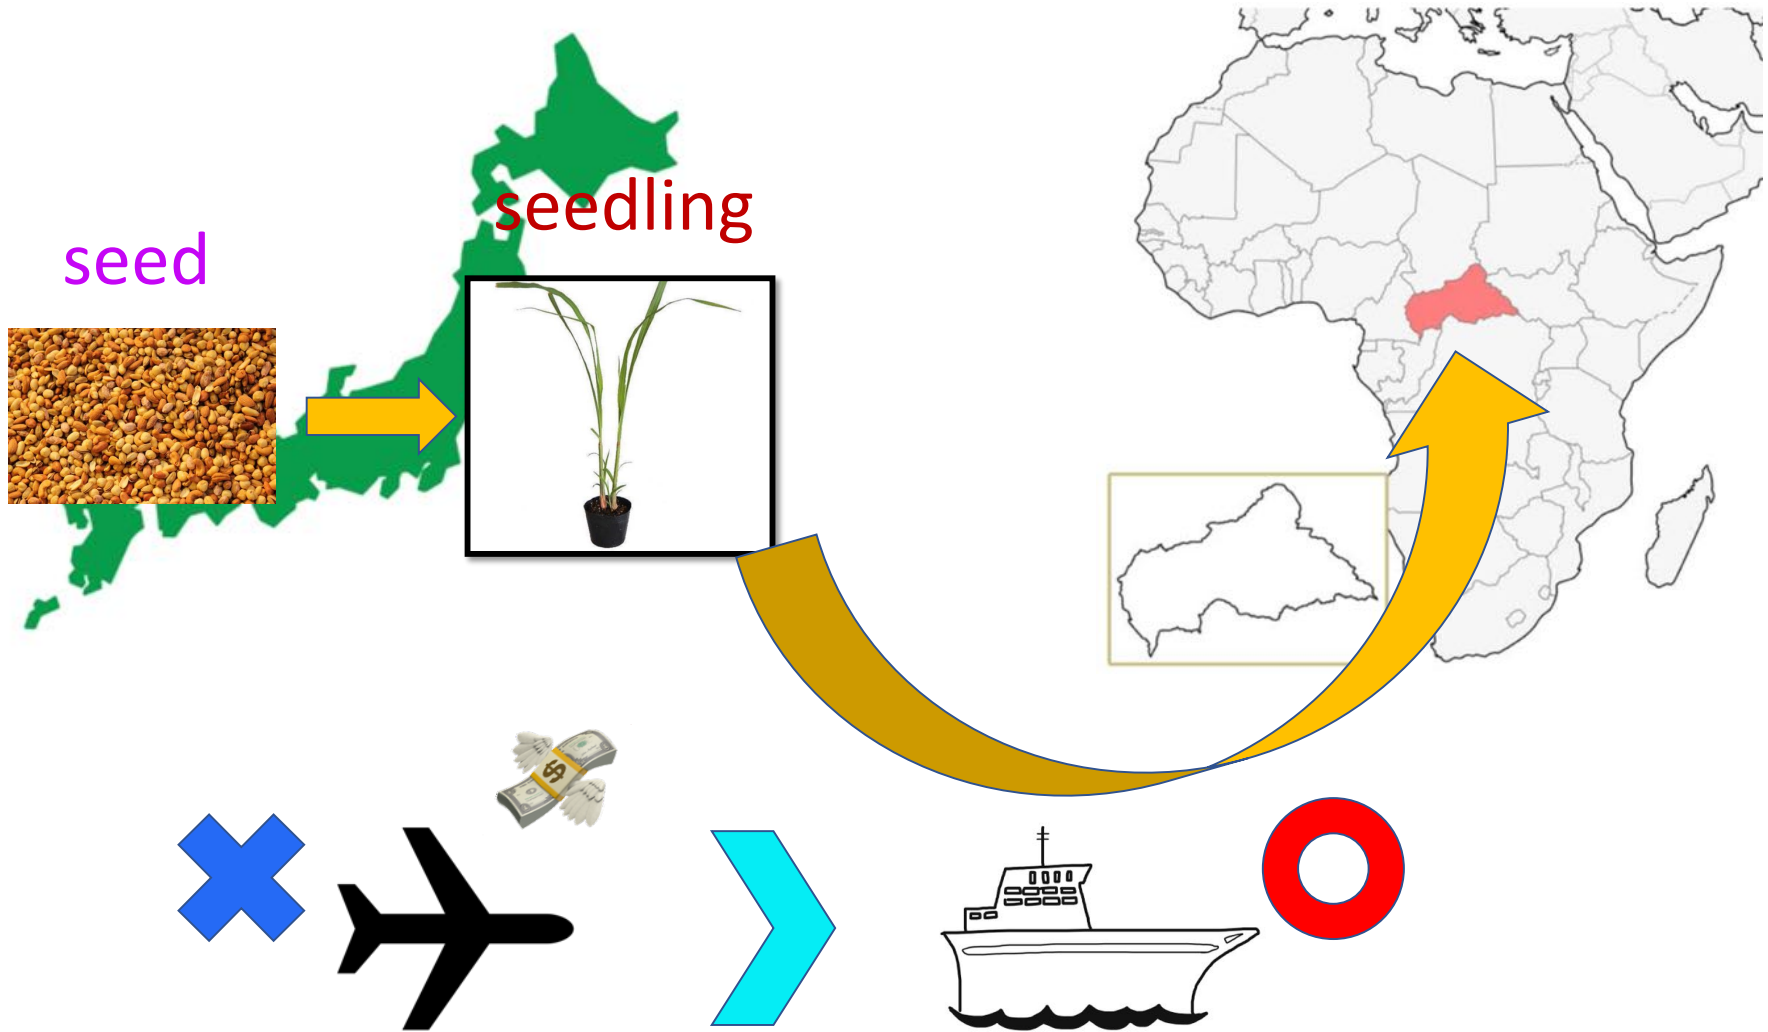

mosquito

The background of the image is a close-up photograph of parched, cracked soil. The soil is a light brown or tan color, and the cracks are dark and irregular, forming a complex, interconnected network across the entire surface. The lighting is even, highlighting the texture and depth of the fissures.

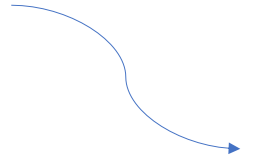

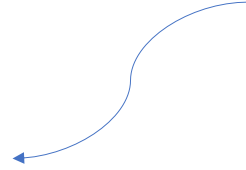

Water Shortage

FUND RAISING

clean water

lemongrass

spray

"Jotyugiku" is toxic to people in Central African Republic.

vegetable oil

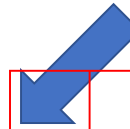

soap

lemongrass

sodium hydroxide

baking soda egg shells
