

Eat Less Meat to Protect the Environment

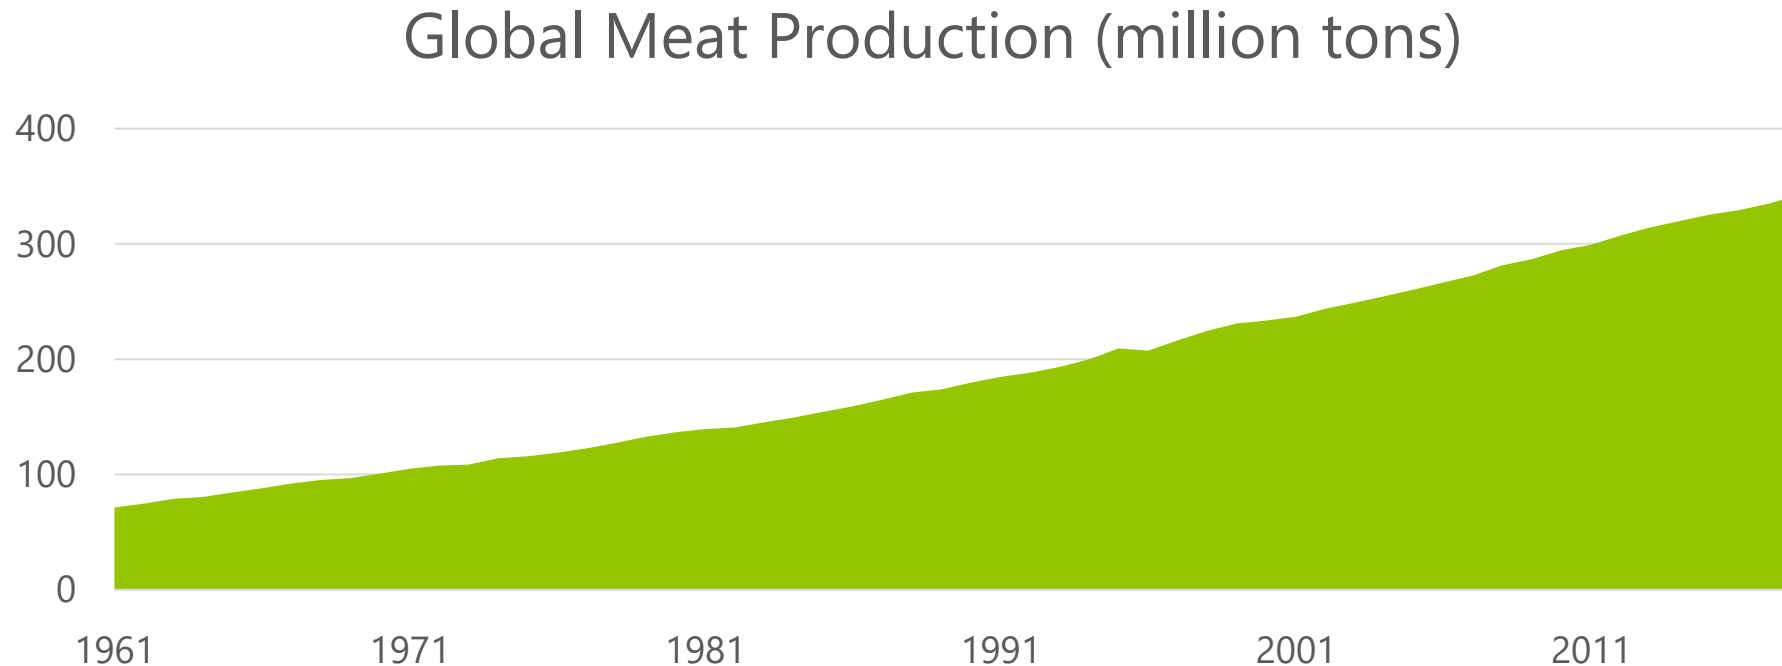

Shizuoka High School

Outline

- Background
 - Environmental effects
 - Mass consumption of grains
- Solution - soy meat
 - Survey
 - Our proposal
- Conclusion

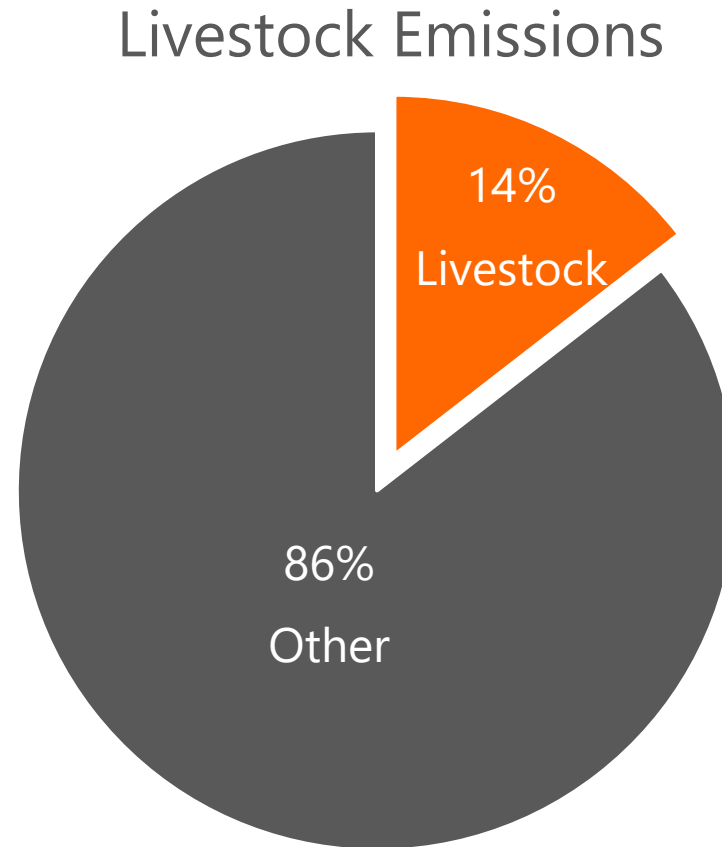

Background

- What is caused by the mass consumption of meat?

- Meat is an important source of nutrition

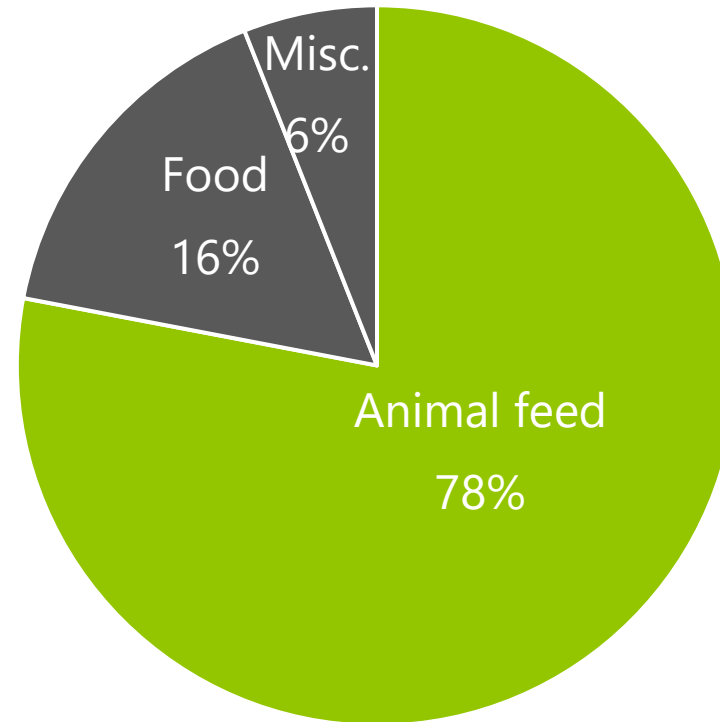

Effect on the Environment

from www.fao.org[1]

Mass Consumption of Grains (1/2)

How soybeans are used...

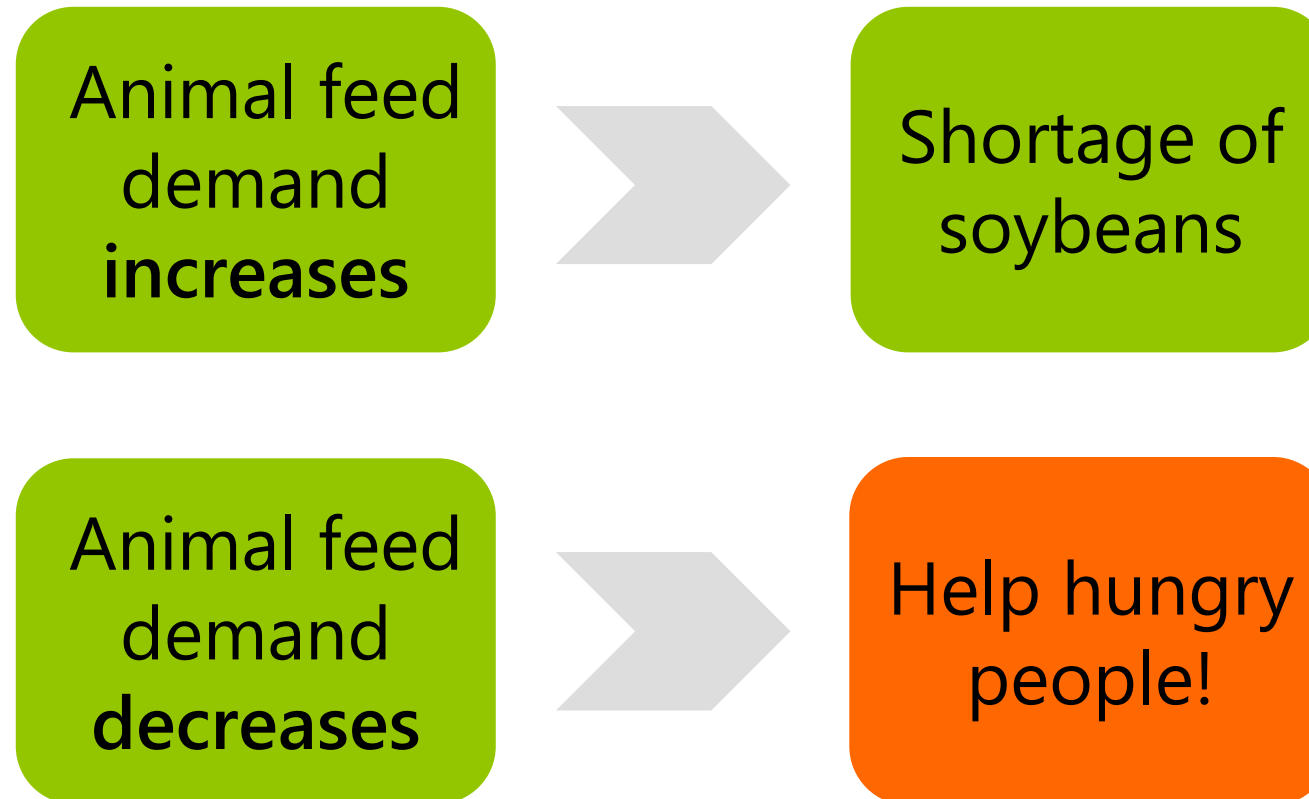

from USSOY[1]

#3/4 Background

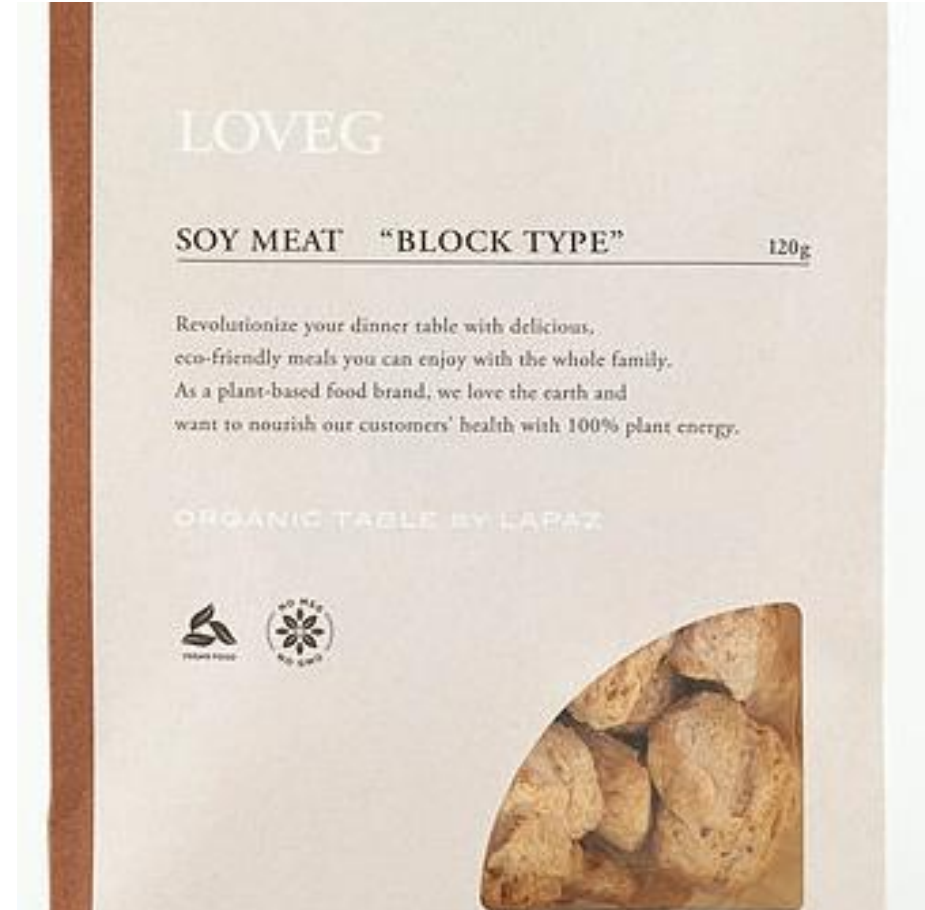

Mass Consumption of Grains (2/2)

- Soybeans are necessary.

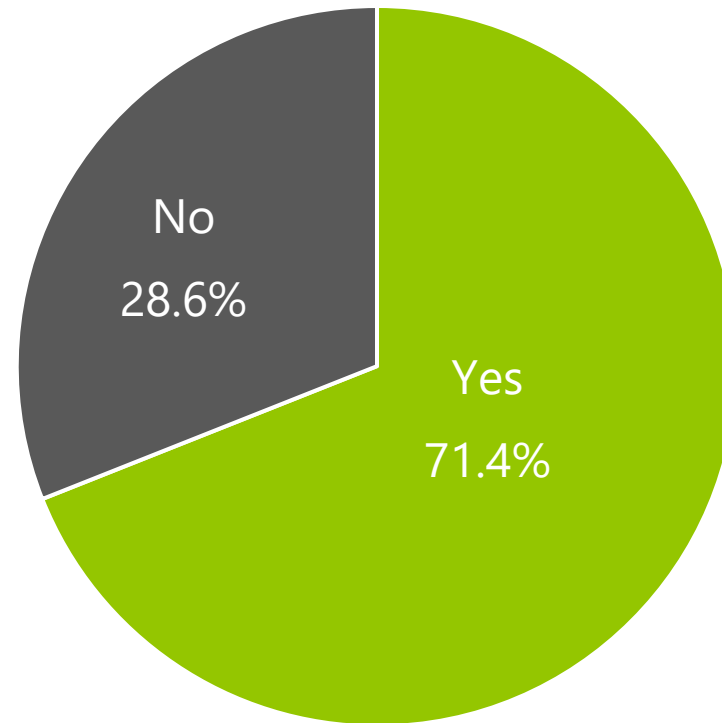

Solution - Soy Meat

- Solves both problems

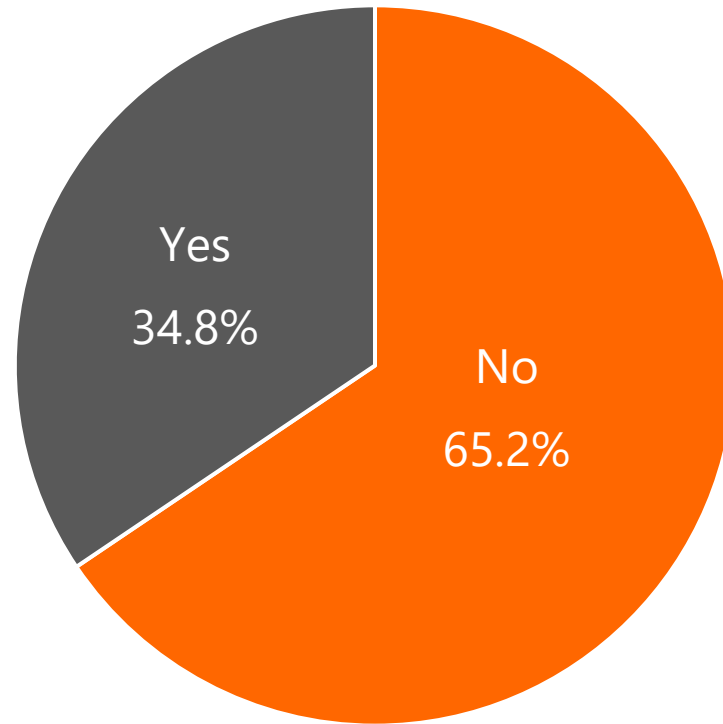

Survey (1/3)

Do you know about soy meat?

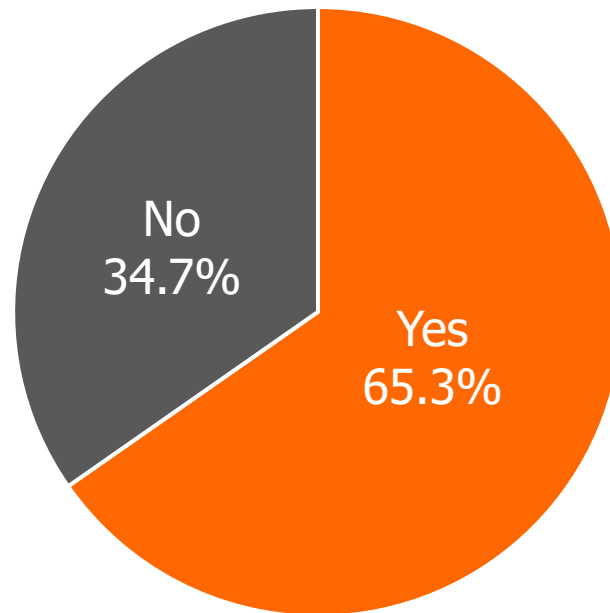

Survey (2/3)

Have you ever eaten soy meat?

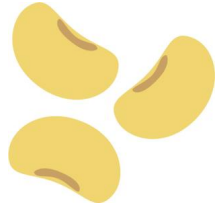

Survey (3/3)

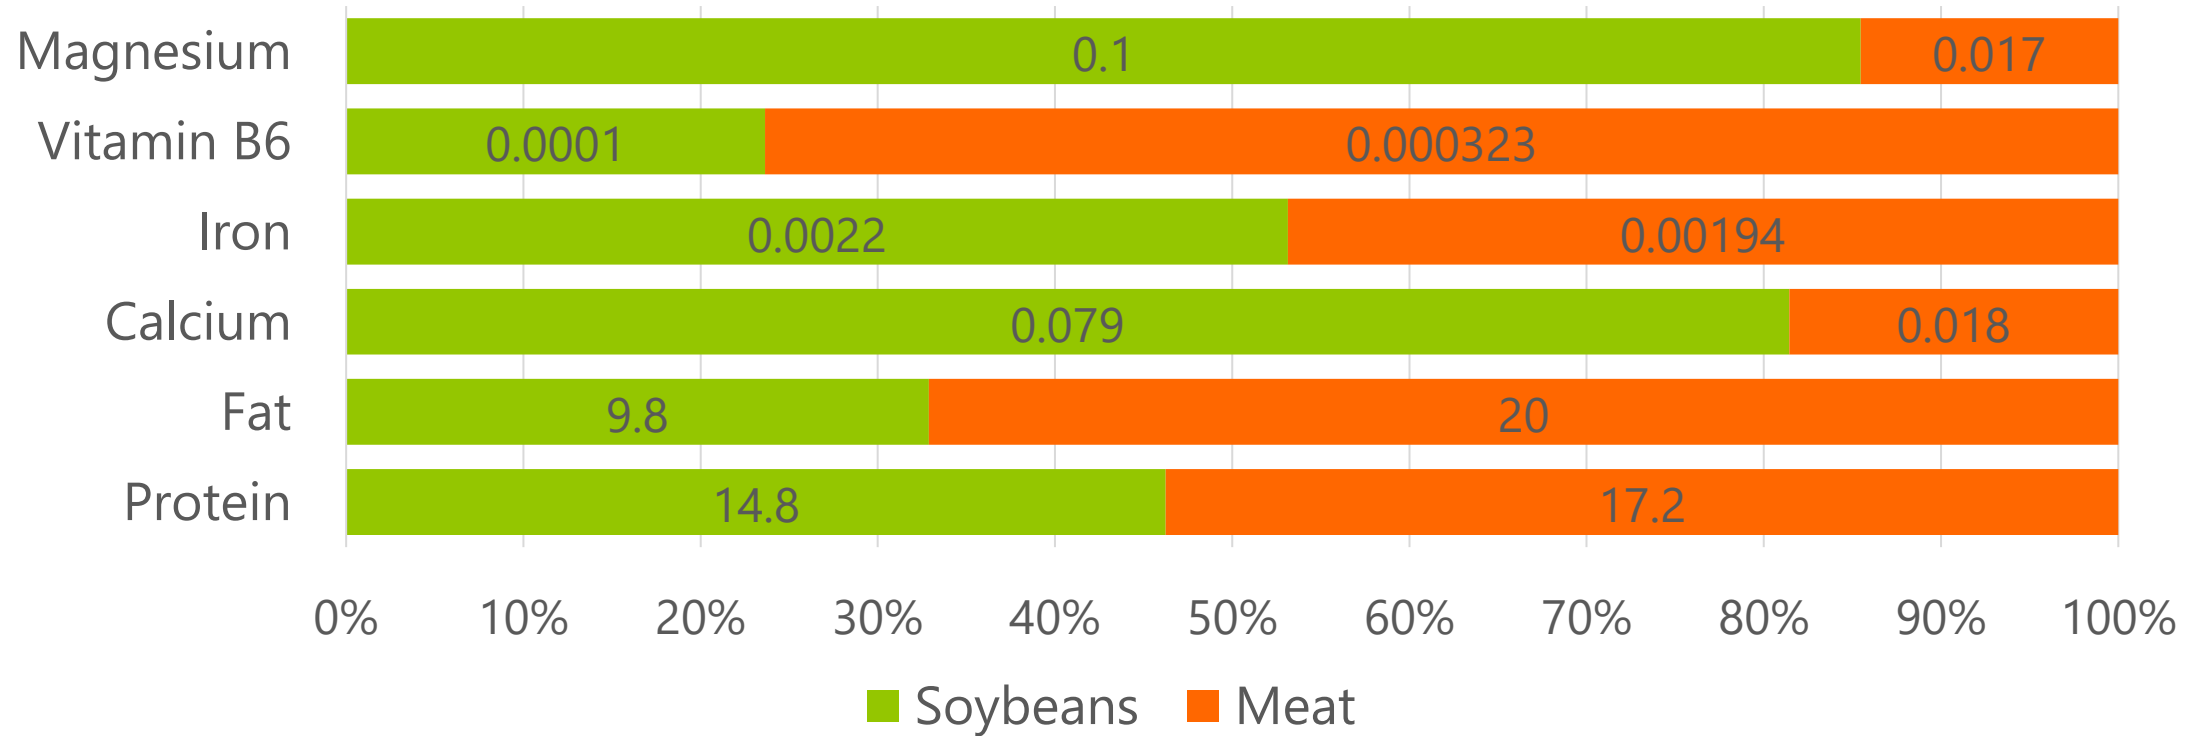

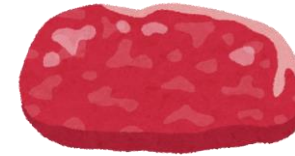

Do you know about the relation between meat consumption and enviromental problems?

Nutrition

Soybeans vs Meat

Our Proposal - Meet New Meat (1/4)

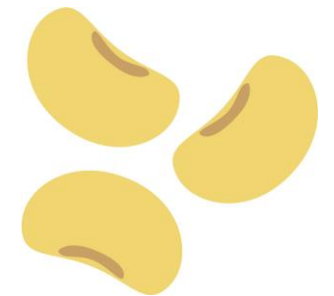

Make poster

Collect recipes
from students
and others

Add soy
meat to our
lifestyles!

Our Proposal - Meet New Meat (2/4)

Make poster

Step 1

- Make a poster about the good points of eating soy meat
- Display it where a lot of people walk

Our Proposal - Meet New Meat

Collect recipes
from students
and others

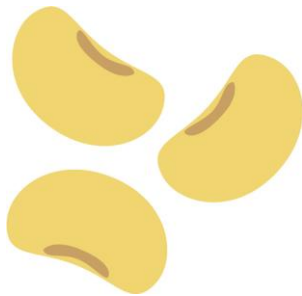

Step 2

- Collect recipes using soy meat and feedback about using them.
- Make and distribute pamphlets with this information.

Our Proposal - Meet New Meat

Add soy
meat to our
lifestyles!

Step 3

- Expand this project to a larger scale.

Conclusion

- The possibility of soybeans
- Eat less meat to protect the environment
