

# Let's review how to perceive "Disabilities"

## Background

Disabilities get more attention from public  
One of the background reasons : law, media broadcasting  
⇒ **Has our understanding of disabilities really deepened?**

## How do we perceive disabilities?

The person who work in "Kashinoki", a welfare facility for the persons with disabilities, said

people who are born with disabilities → Able-bodied people ✕  
= So ⇒ They don't need to live with the able-bodied with feeling oppressed  
(Abled-bodied people ⇐ **Different cultures** ⇒ People with disabilities)

It's OK

if people who work in welfare facilities learn a lot from them and love them

## Summary of the exploration

Disabilities are "individuality"!  
Let's live together!

- ✕ Society that forces able-bodied people and people with disabilities live together
- Society that allows all people regardless of their disabilities to choose their lifestyle
