Premise - intro (in the future sdg 8 and 16), flashback (sdg 4 and 10), vo over the pics/content

***Intro [in the future]***

**Announcement (Teacher):** Welcome to the 2030 SDG Culmination Conference!

Student 1: Where do I go?

Student 1: Is that...

**All:** Hi Everyone!

Student 2: How long has it been since we have last seen each other?

Student 1: Almost 8 years?

Student 3: Guys do you remember when we were in the Poveda Model United Nations club back in 2021?

Student 2: Yeah! The good old days...

***\*flashback sequence\****

Teacher: Good Morning Global Youth Leaders! Since we have been talking about the 17 SDGs that we hope to achieve by 2030, our main focus for today is the 4th SDG or "Quality Education!"

Student 2: Even with the COVID-19 pandemic we are lucky enough to receive quality education through online class and our school's Distance Learning Program!

Student 1: Not only can this help us but it can also prepare us to become people who help others too.

Student 2: I'm also glad our school has organizations like Proyecto Enseñar that aims to allow education to be more accessible!

Student 3: I agree! I hope that by using the things we have learned, we can help in giving more opportunities to those who may not have access to quality education.

Teacher: Before the class ends, I would like to remind everyone that we will be having an outreach with our partner communities next week! Does anyone know which SDG this is in line with?

Student 1: The 10th SDG or Reduced Inequalities!

Teacher: Yes! I am looking forward to seeing you all at the outreach program.

Student 3: The outreaches we did not only in our *Model United Nations* club but all throughout our grade school and highschool lives, could help us achieve the SDGs too.

Student 1: Through programs such as *Panuluyan* and *Talaban*, we were able to make a difference in the communities around us, working towards the eradication of inequalities amongst the people.

Student 2: From *Poveda Red Cross*, an organization that works towards humanitarian assistance, to *Poveda Gawad Kalinga Youth*, an organization who works towards the eradication of poverty for almost 5 million Filipino families, we are given a lot of opportunities to make a difference through these initiatives.

### ***Outro [back to the future]***

**Student 1:** Look at us now! Living out the very SDGs that seemed unthinkable back in 2021.

**Student 2:** I feel like all the contributions we made, big or small, really made a difference to the way we live today.

**Student 3:** That's right! I mean, look at us! Making Draft Resolutions in the General Assembly! That's a picture perfect manifestation of the 8th SDG.

**Student 1:** Don't forget the 16th SDG! We are now able to create Resolutions that can help those in need without corruption or discrimination.

**Student 2:** What seemed like a dream to us back then has now become a reality though a domino effect of efforts.

**Student 3:** Our quality education helped us find decent work and good jobs which lead to economic growth and reduced inequalities through peace, justice, and strong institutions!

**Student 2:** It really shows how all the SDGs work together to bring a better life for everyone.

**Student 1:** Just like how our teacher used to call us Global Youth Leaders, I feel like we have finally become....

**All:** Global Leaders who can make a change!
