

How can we ease children's stress during evacuation?

~Let's spread happiness together through play!~

Osaka Prefectural Senri High School

Problem and purpose

Japan : Many natural disasters

Many children :

Stressed during evacuation

 **Solution by playing**

△Need manpower & funds

Hypothesis

High school students

Things in the shelters

We can solve manpower and fund problem

Our ideas

- **Blankets as a secret base**
- **Drawing on paper cups**
- **Playing with newspaper**
- Toy doll made of towels and socks
- Shadow picture
- Play outside
- ...etc.

Fieldwork

Event : Suita City Regional Disaster Prevention Comprehensive Drill

Date : 2022/9/3

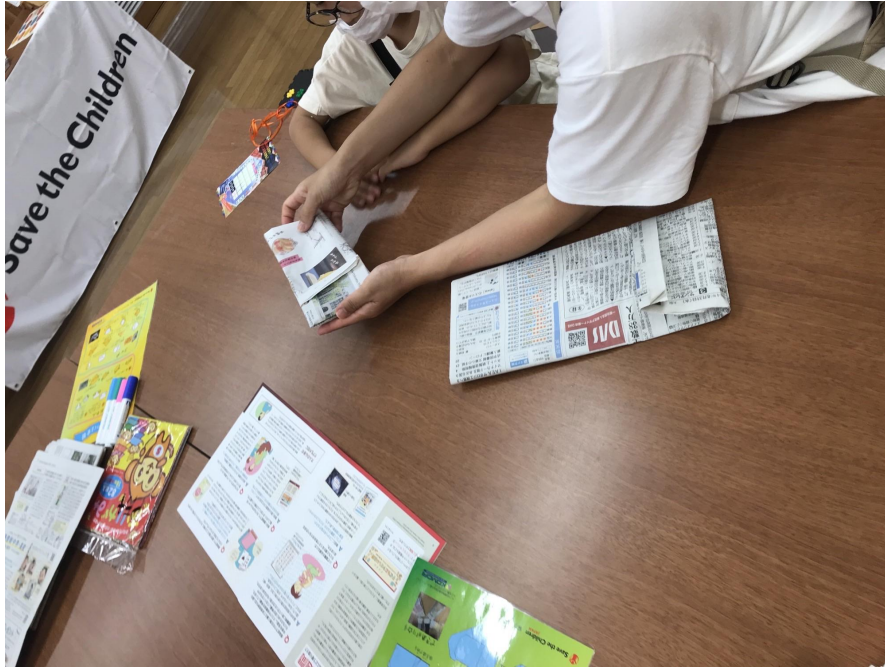

Place : Suita City Nature Experience Exchange Center

Activity:

- make newspaper slippers and cups
- put on the self-made slippers and walk on plastic blocks

Newspaper slippers

Evaluation by a specialist

- **Blankets as a secret base**
- **Drawing on paper cups**
- **Playing with newspaper**

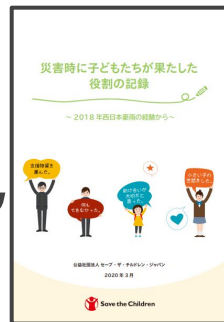

Important to let children
choose what to do

Consideration

“Junior high school students volunteered to play with elementary school students.”

『災害時に子どもたちが果たした役割の記録
～2018年西日本豪雨の経験から～』

Appeal to junior & senior high school students

- many connections with others
- ability to spread the idea

Our future actions

- Learn more about playtime activities
 - report documents
 - psychological studies
- Creating **a guidebook**
- Spreading the information by **using SNS**
