

Save the planet with new ideas!

~W202006-3 Okayama Prefectural Tamashima High School~

Research Motivation

Eating up is easy

?

What is a food bank?

Unused
stockpiled food

People in
need of food

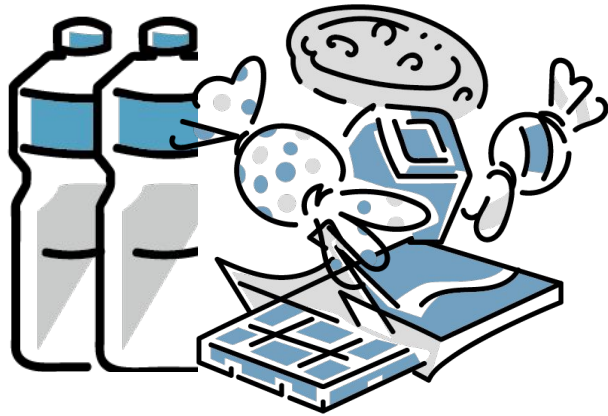

Offered Free

- Businesses
- Homes

Welfare facilities
etc

Discarded stockpiled food

11t !!

Data from : Tohoku area Japan

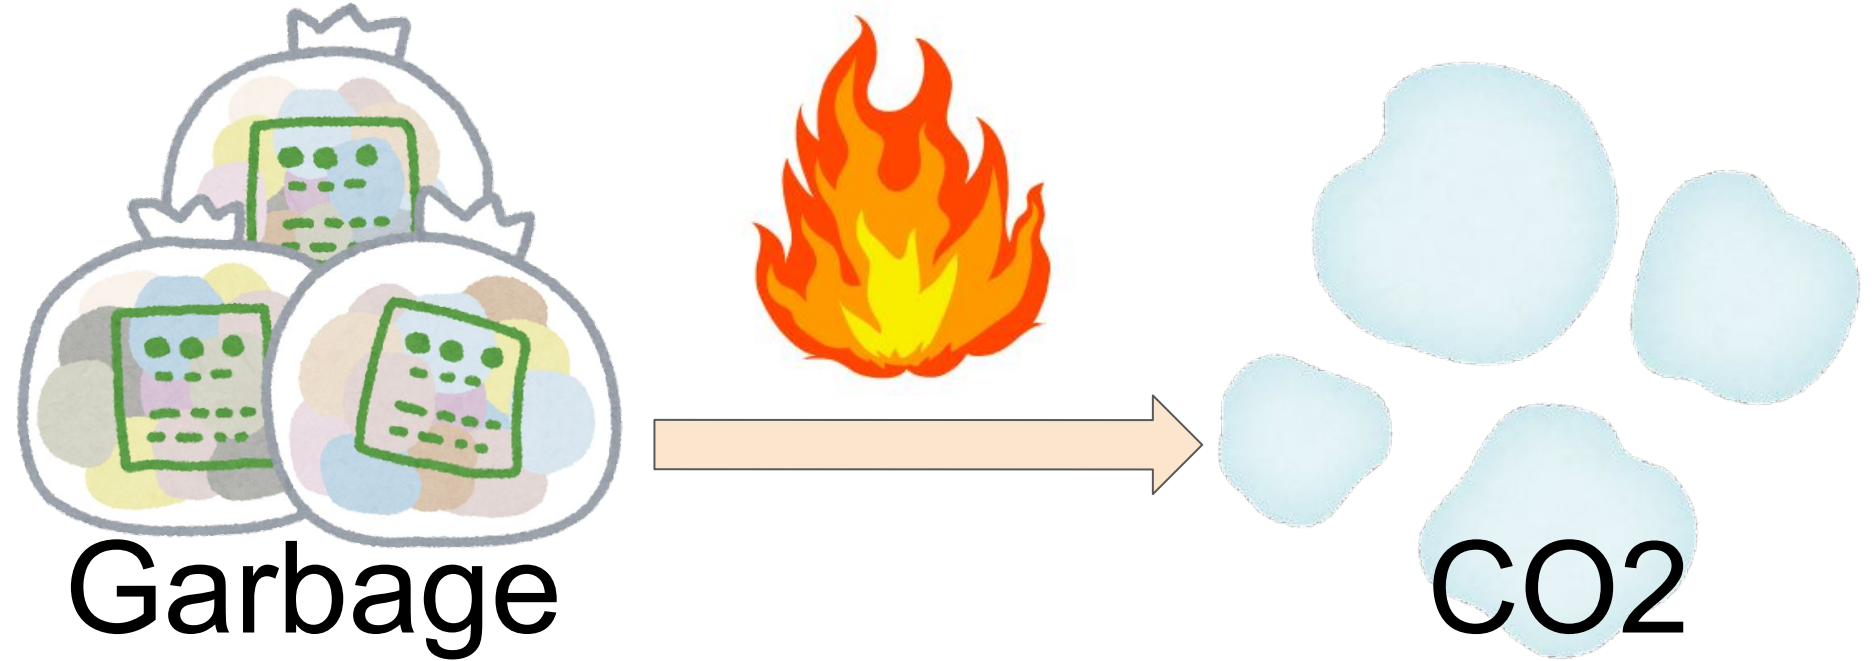

Think about it in our lives

$\times 11$

$1t$

Emits a lot of CO2

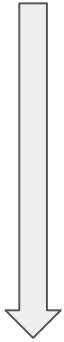

When you burn...

832,500
yen

What we learned from City Hall

Now : Used for events, etc.

→ 0 waste of stockpiled food

Our city is increasing stockpile.

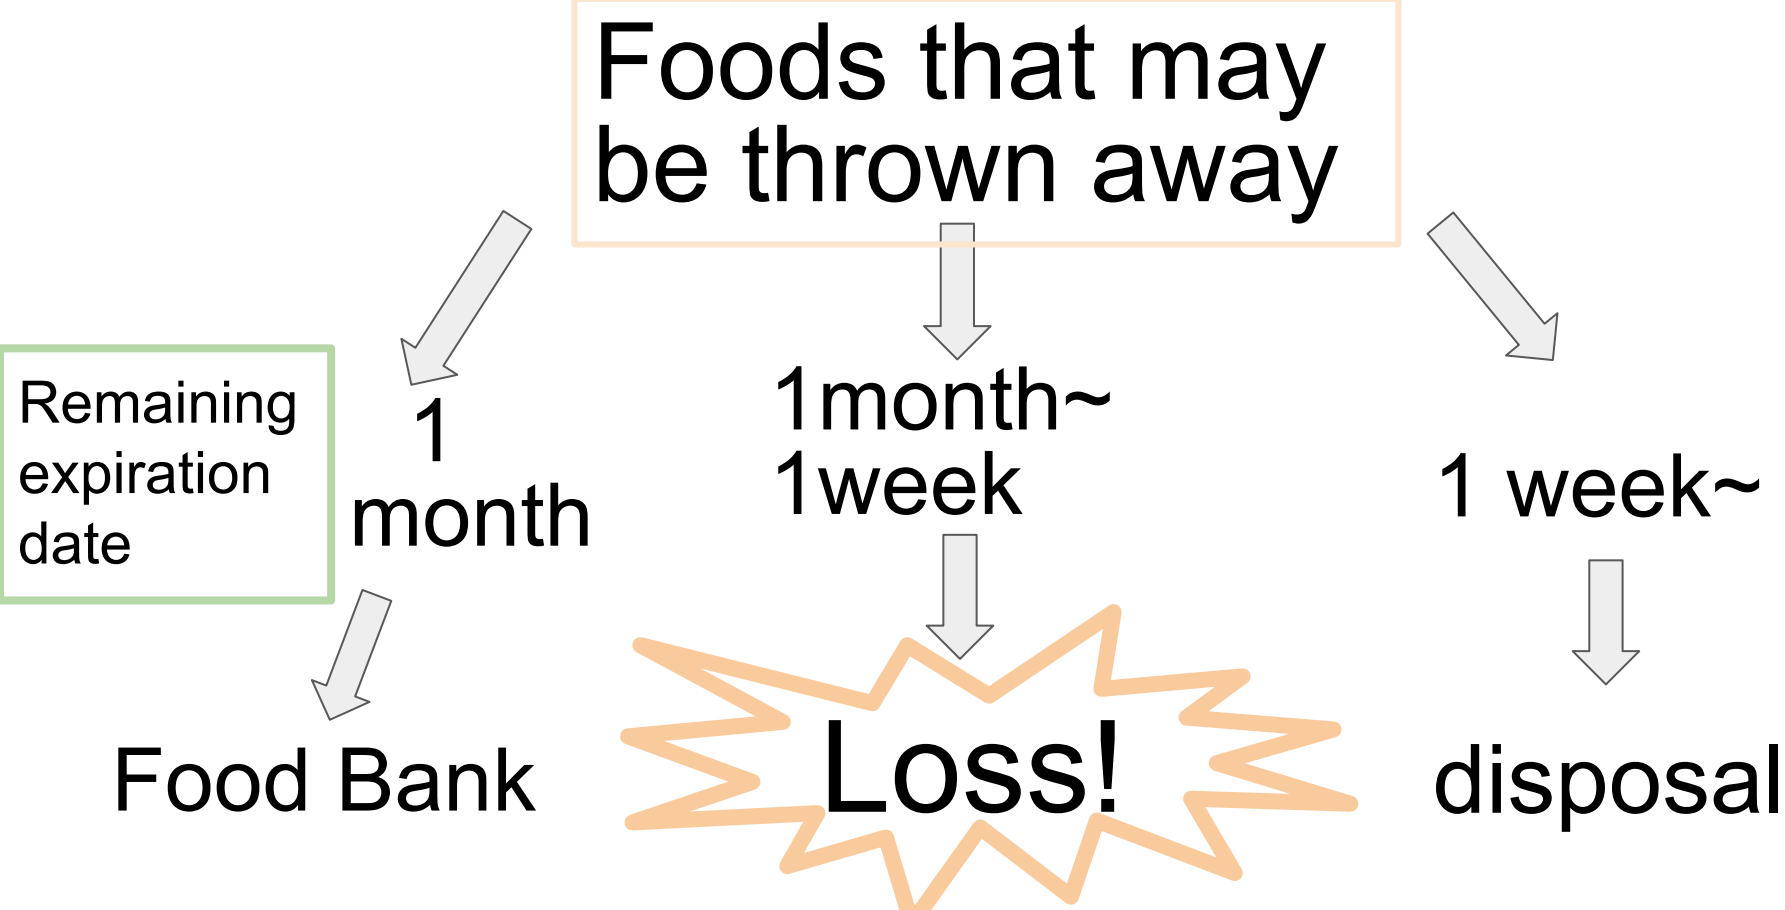

Future : Thrown away ?

What can we do to prevent?

How Food Bank Work

A new way we thought up

1 month~
1 week

Loss!

1 week~

disposal

Other activity

- Temaedori
- TABETE

etc...

***Think of a new
idea and try it!***
