

RELATIONSHIP BETWEEN QOL AND GARBAGE PROBLEM

WHAT IS QOL ?

QOL is evaluated from 6 areas. Physical area, Mental area, Independence level, Social relations, living environment, and spirituality/religion/faith. We assumed half of these 6 have relationships with garbage problem. These years plastic garbage problem is a global problem. This is one reason why developed countries have low QOL and it's a problem with which we can find a solution for. So we thought if there is anything we can do.

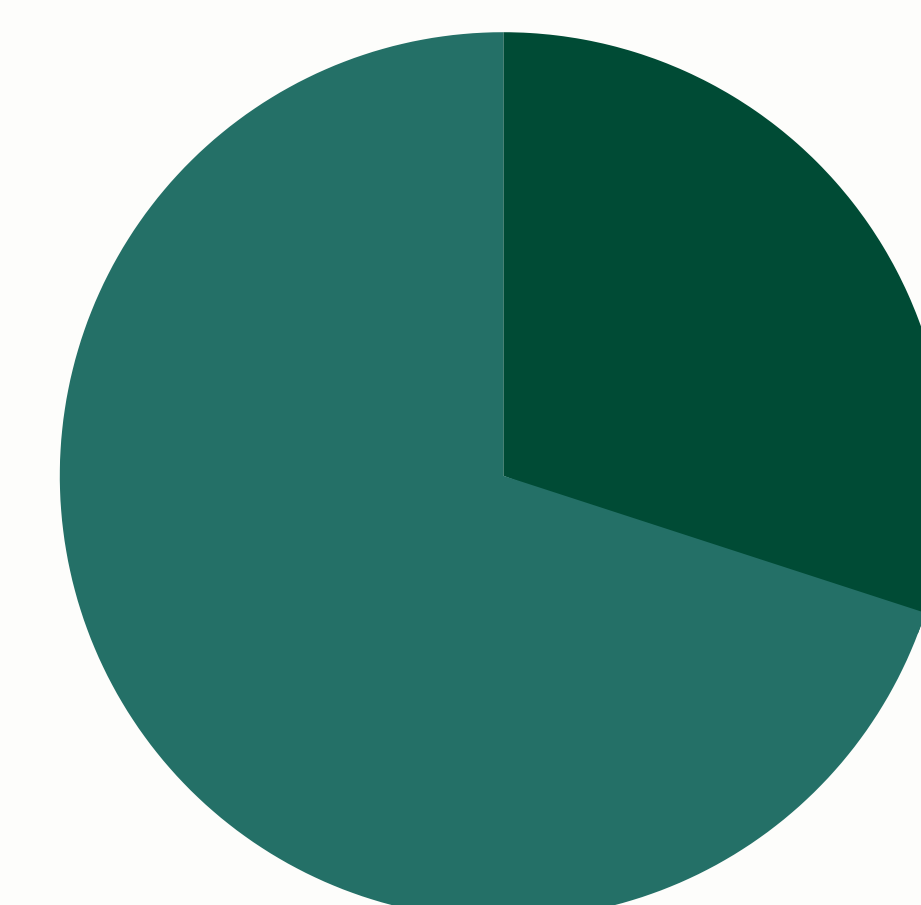

Why is it important to rise QOL? That's because it's in an inseparable relationship with life.

What kind of situation are the people from countries with low QOL in? Also let's look at the problems of the developed countries.

4. RATE OF RECYCLABLE GARBAGE IN VIETNAM AND CAMBODIA

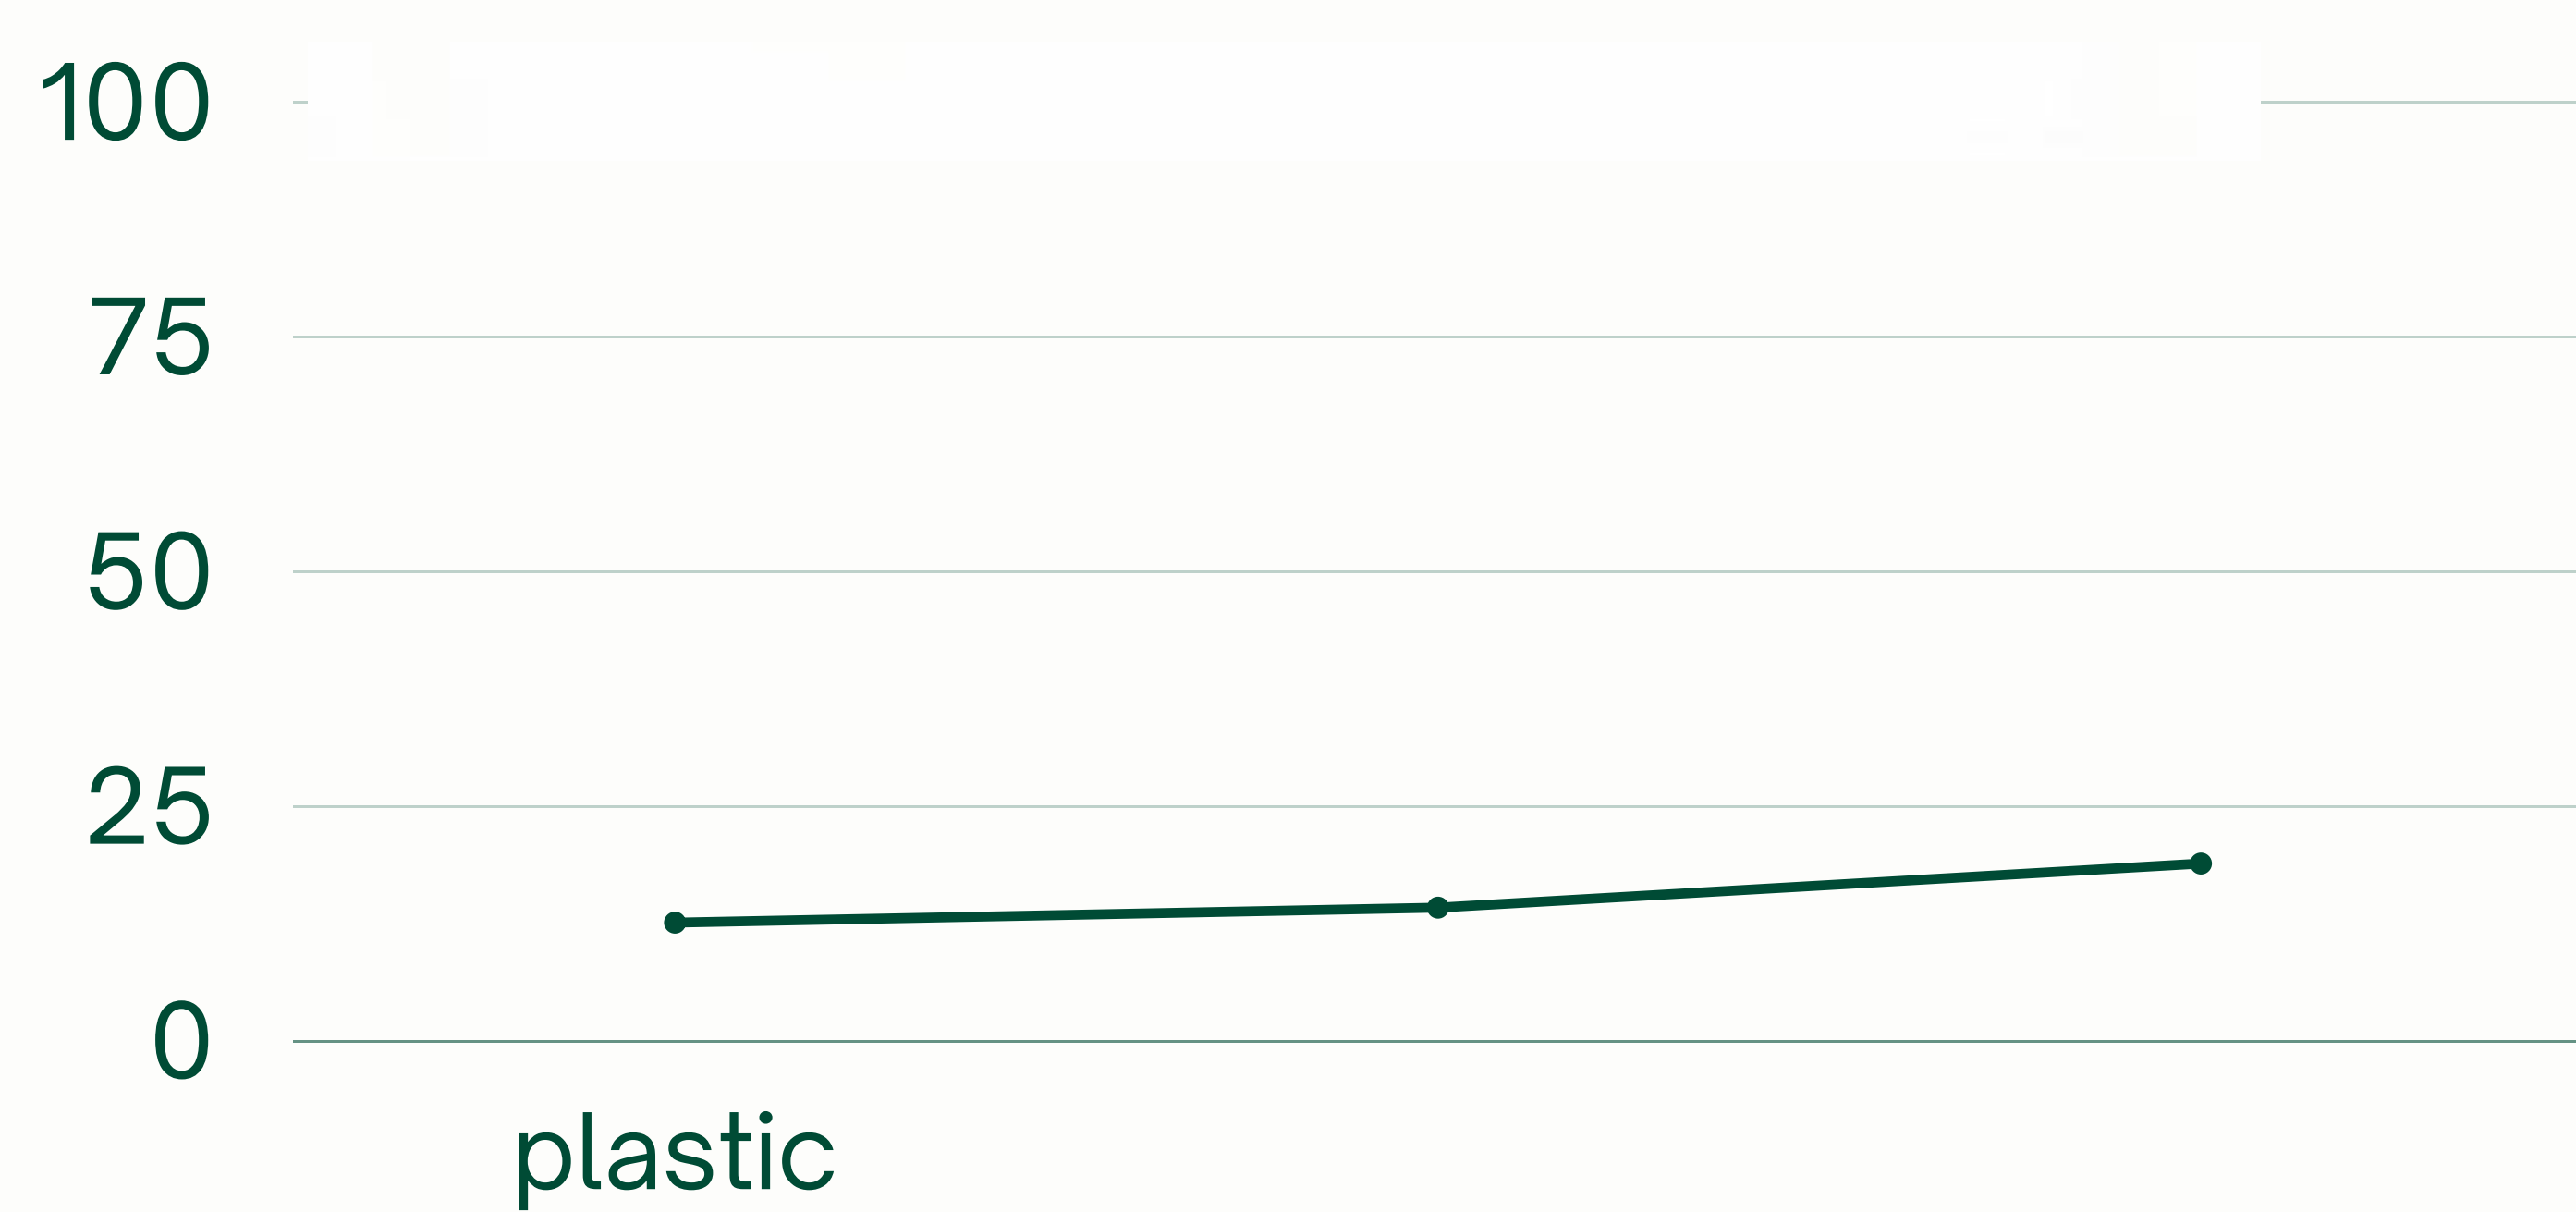

Recyclable 70%

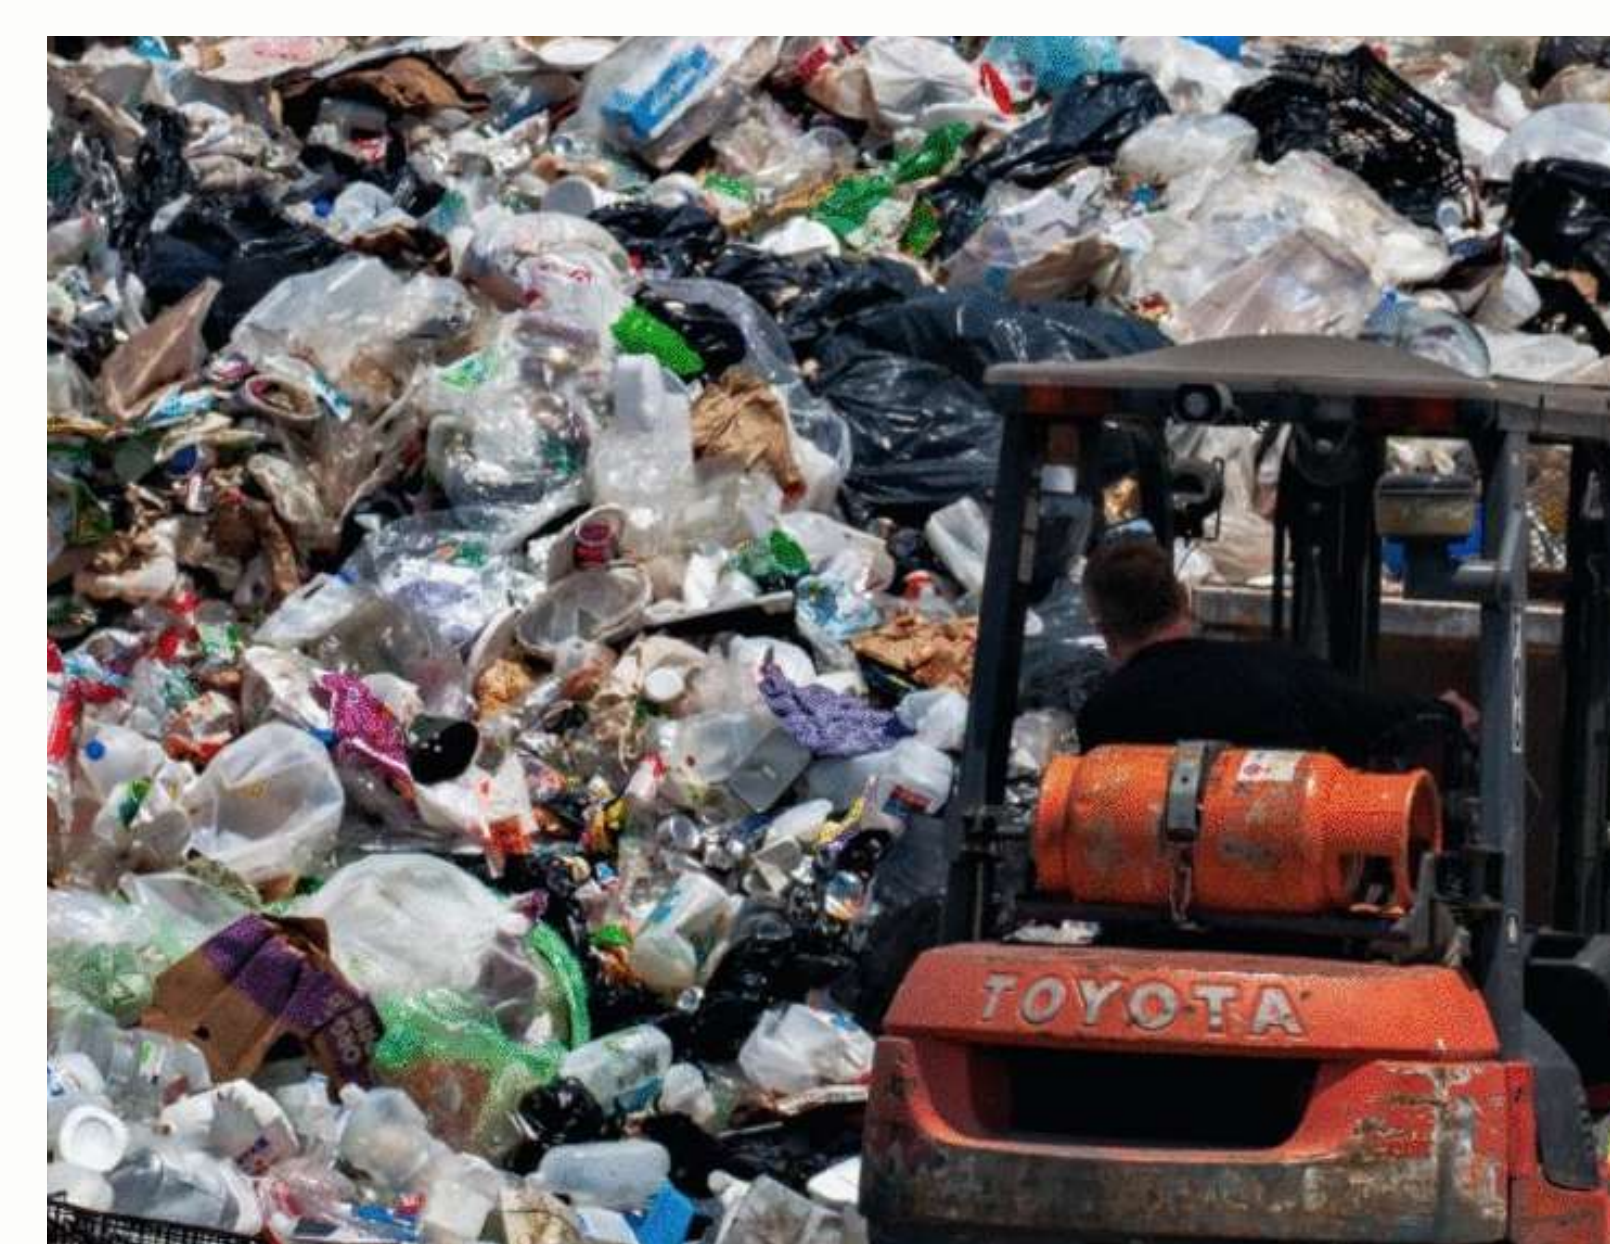

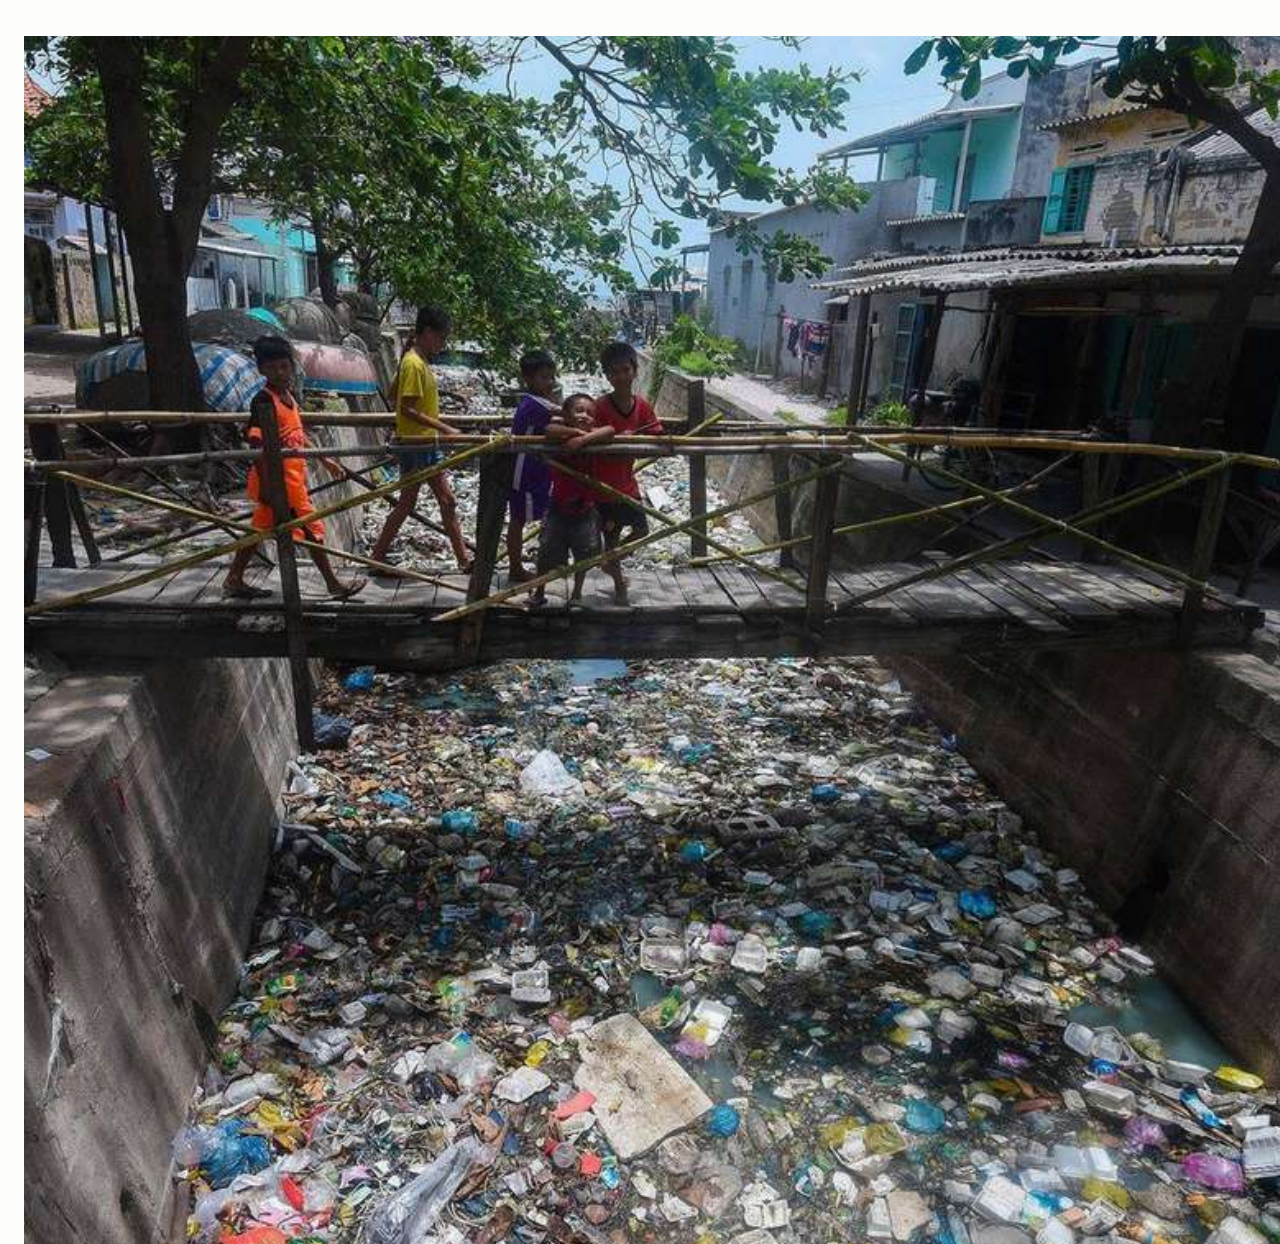

Not recyclable 30%

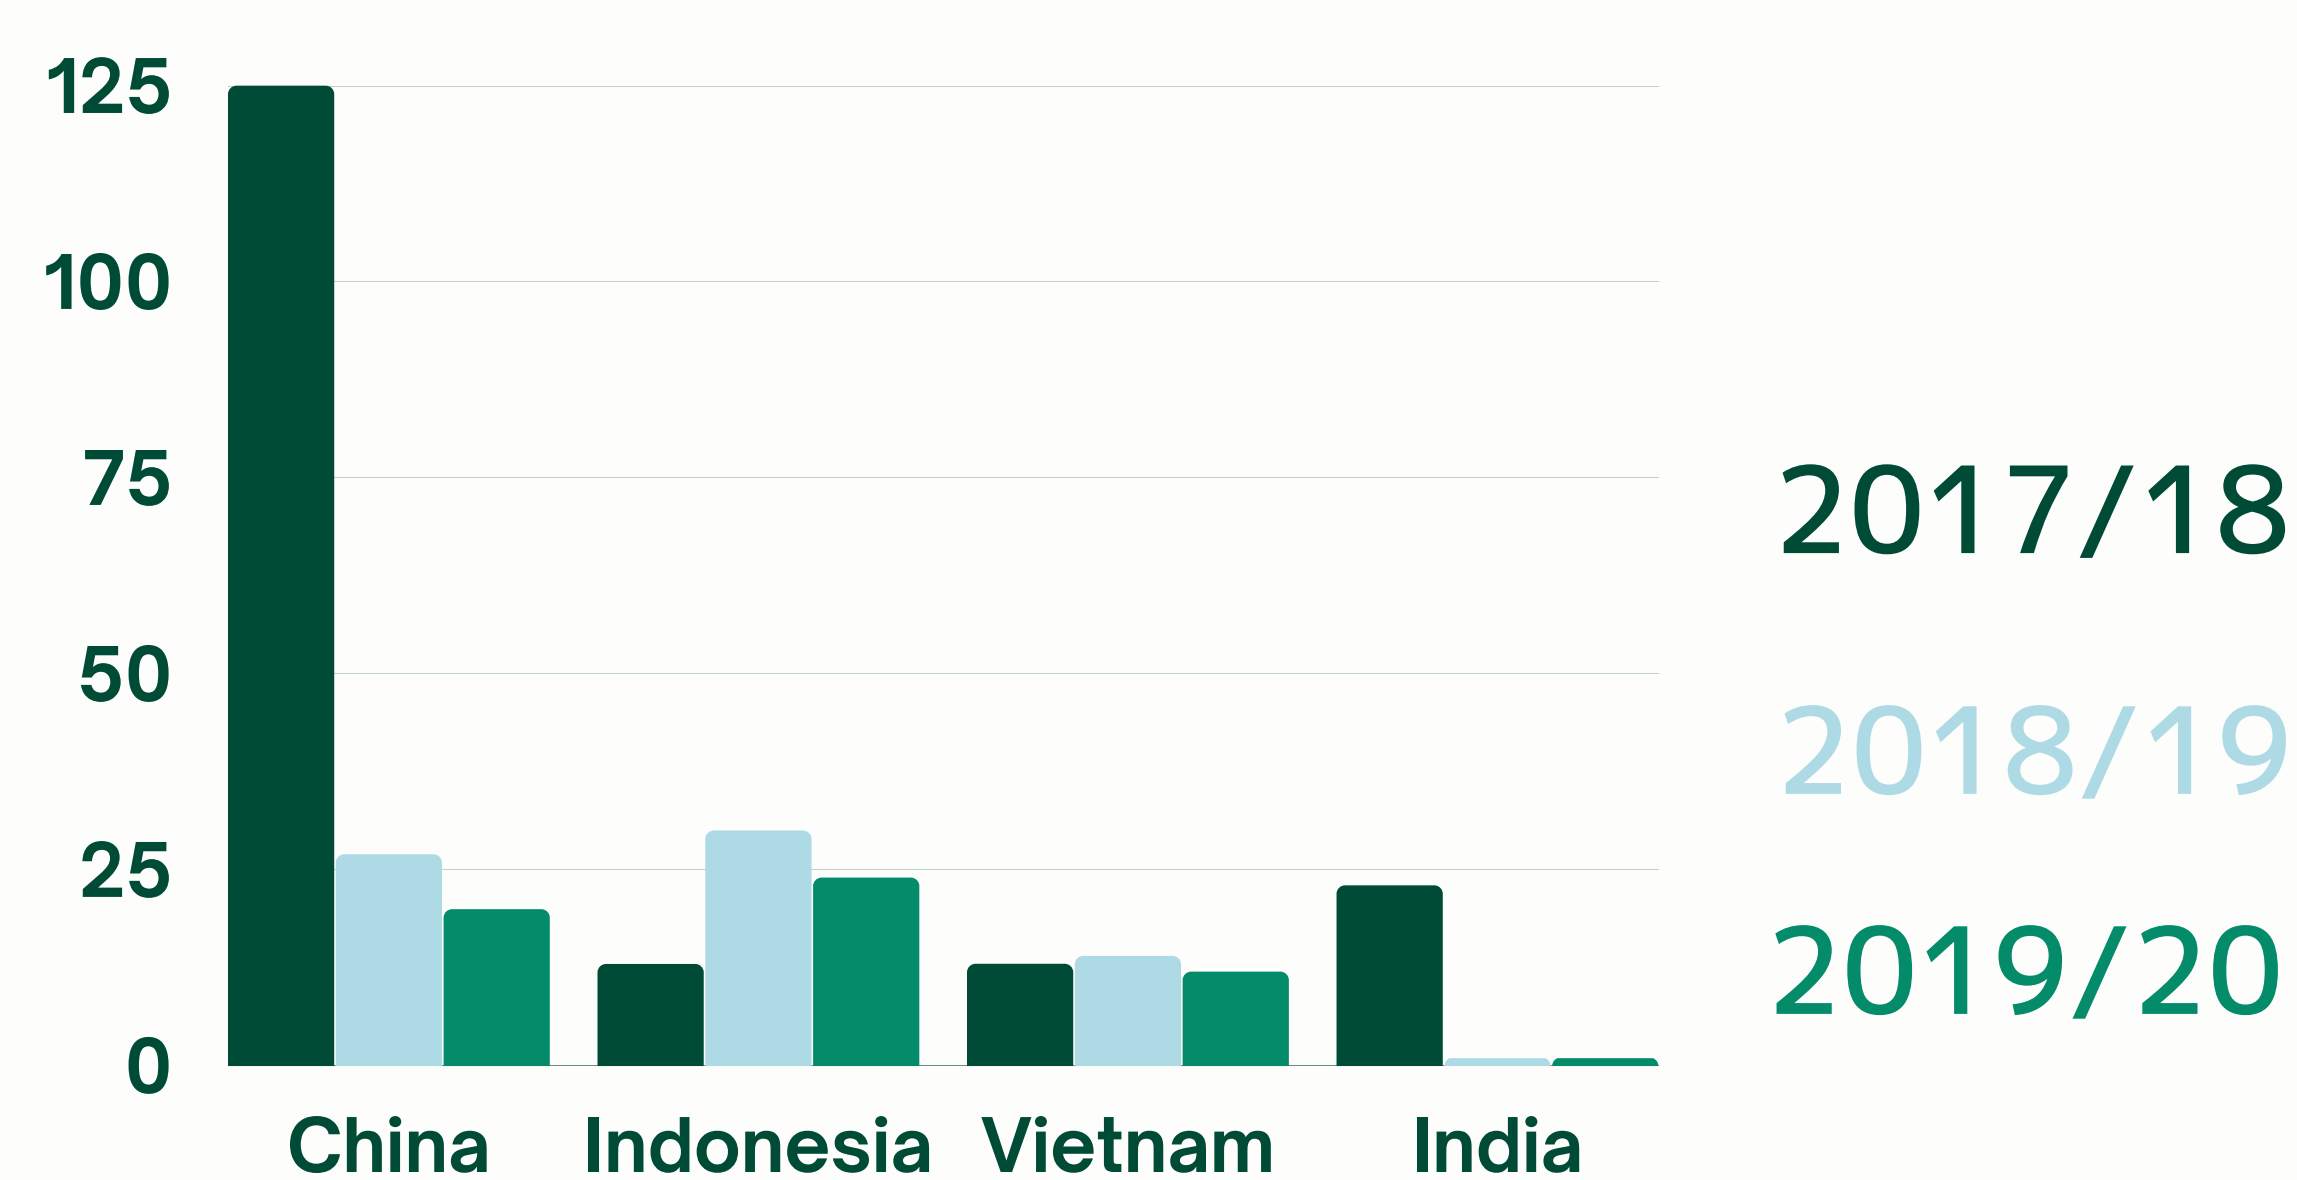

1. AUSTRALIA RECYCLING RATE BY YEAR

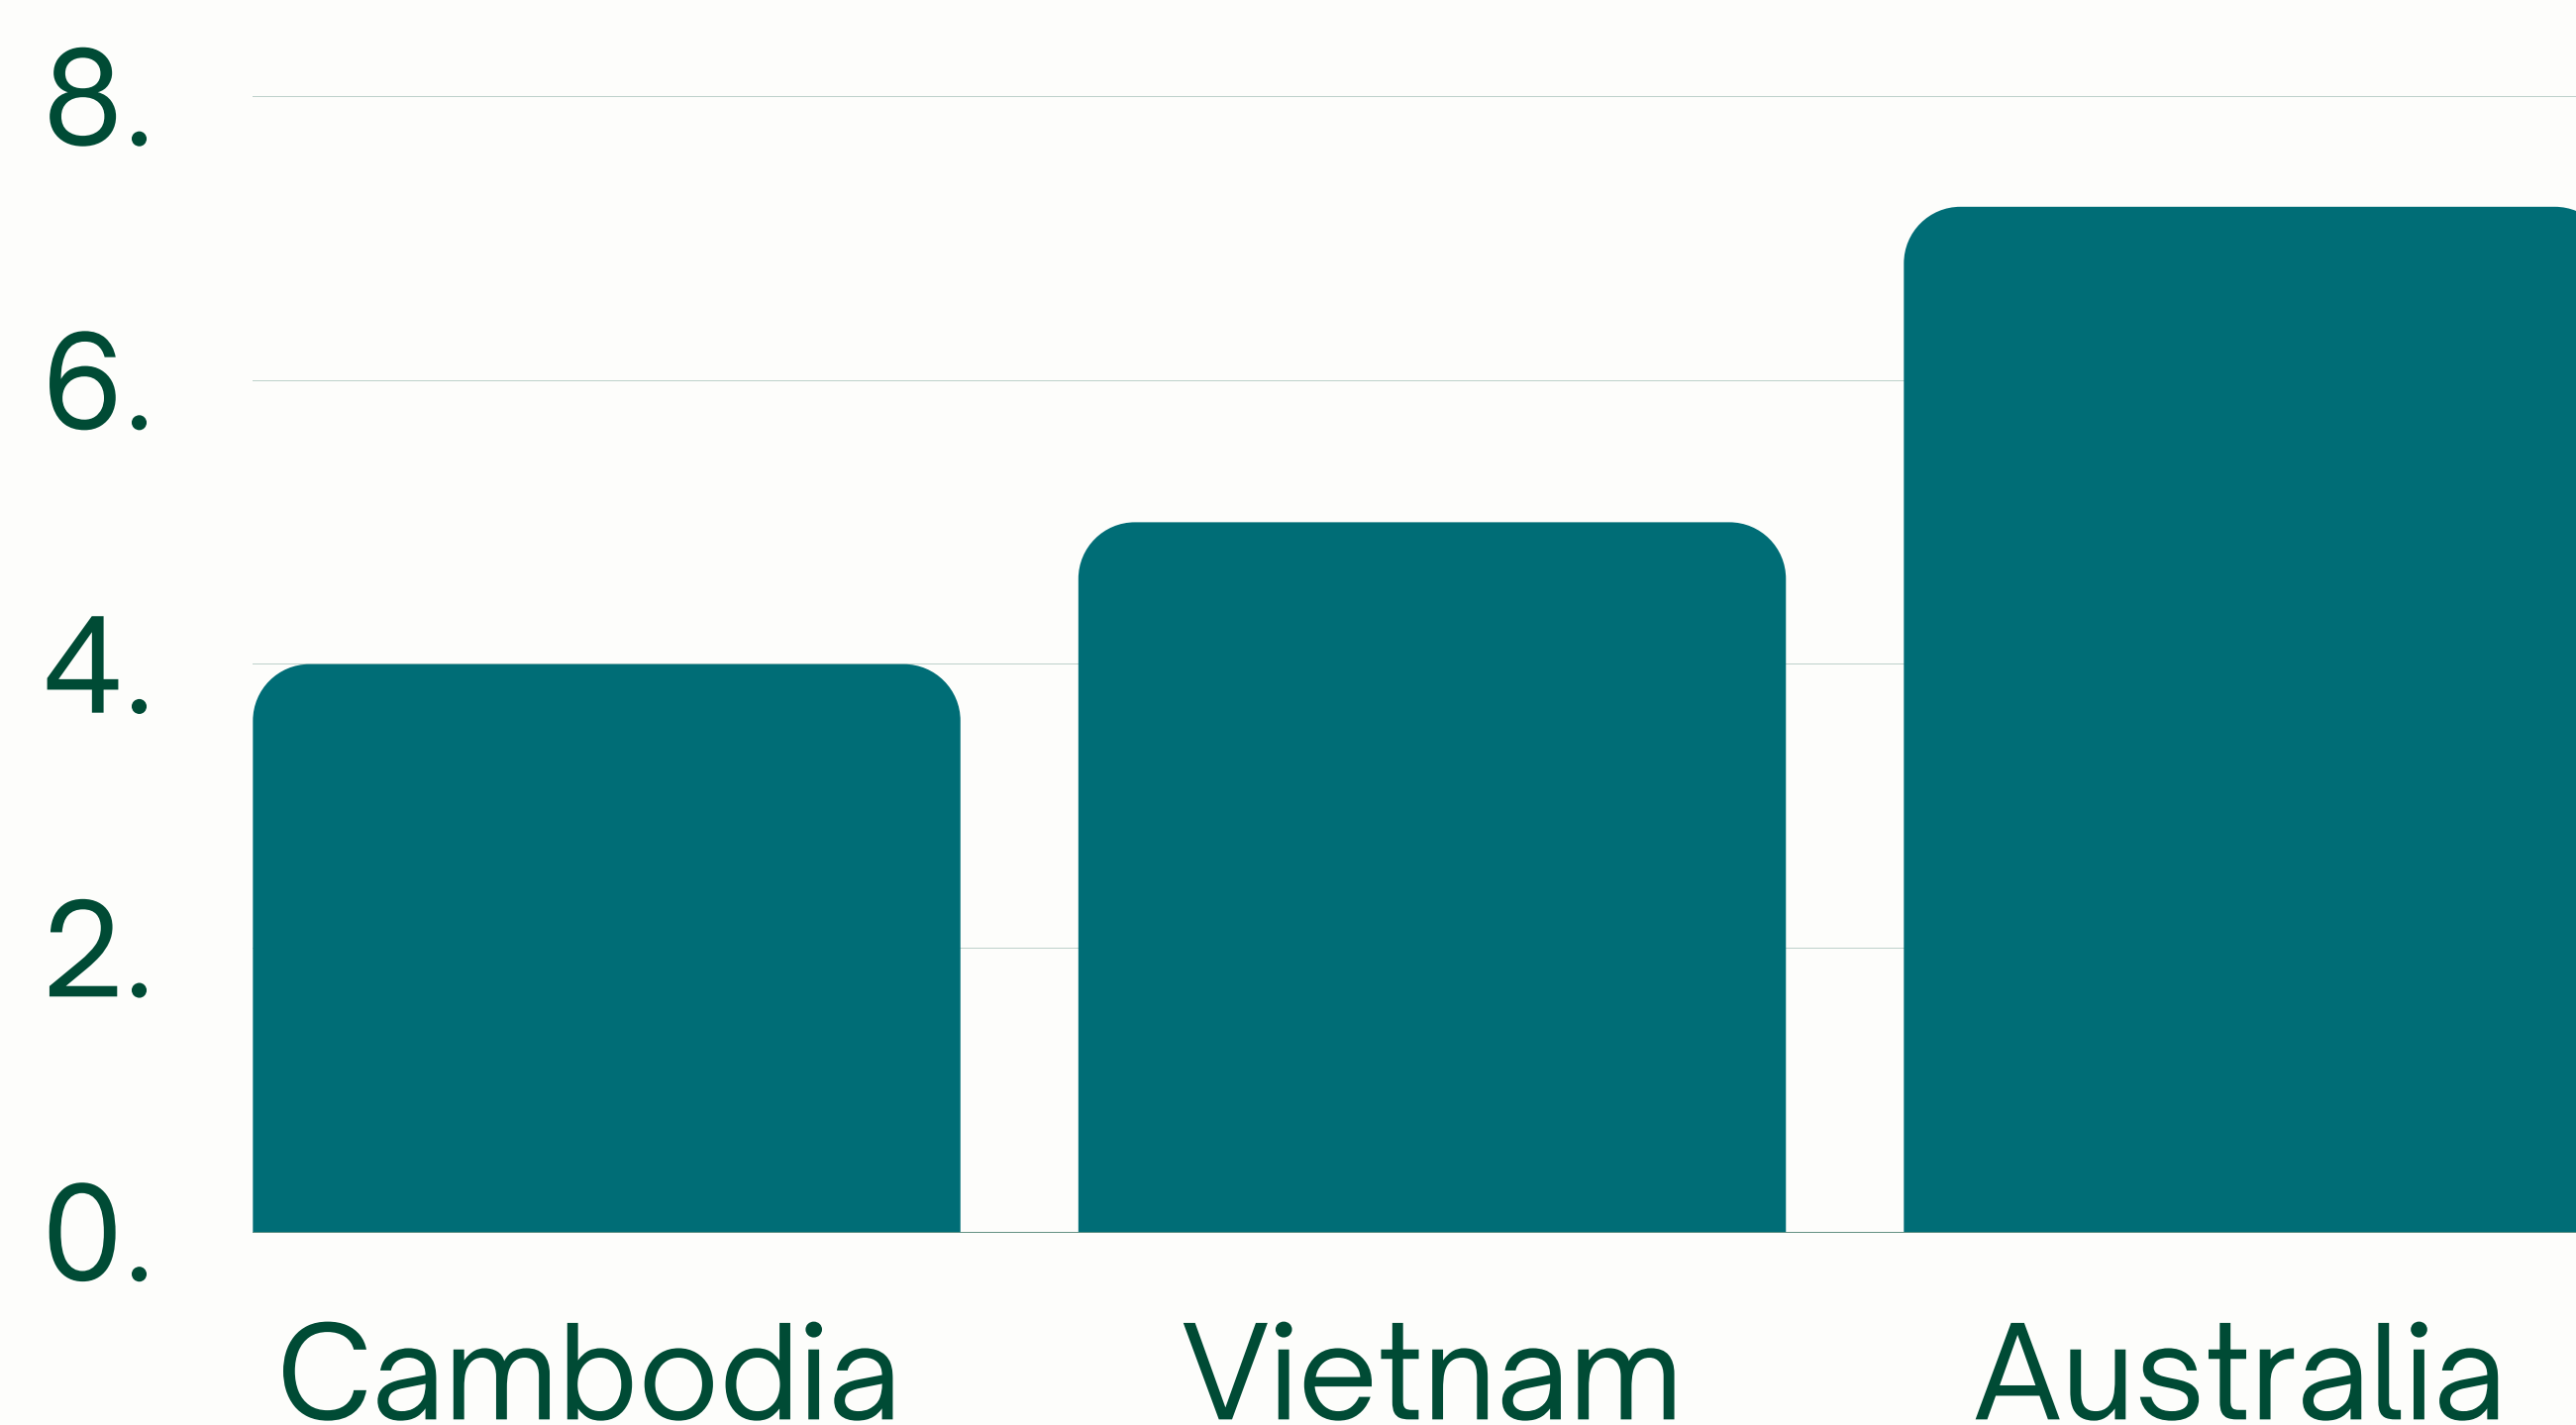

5. PRESENT CONDITION OF GARBAGE PROBLEM IN CAMBODIA AND VIETNAM

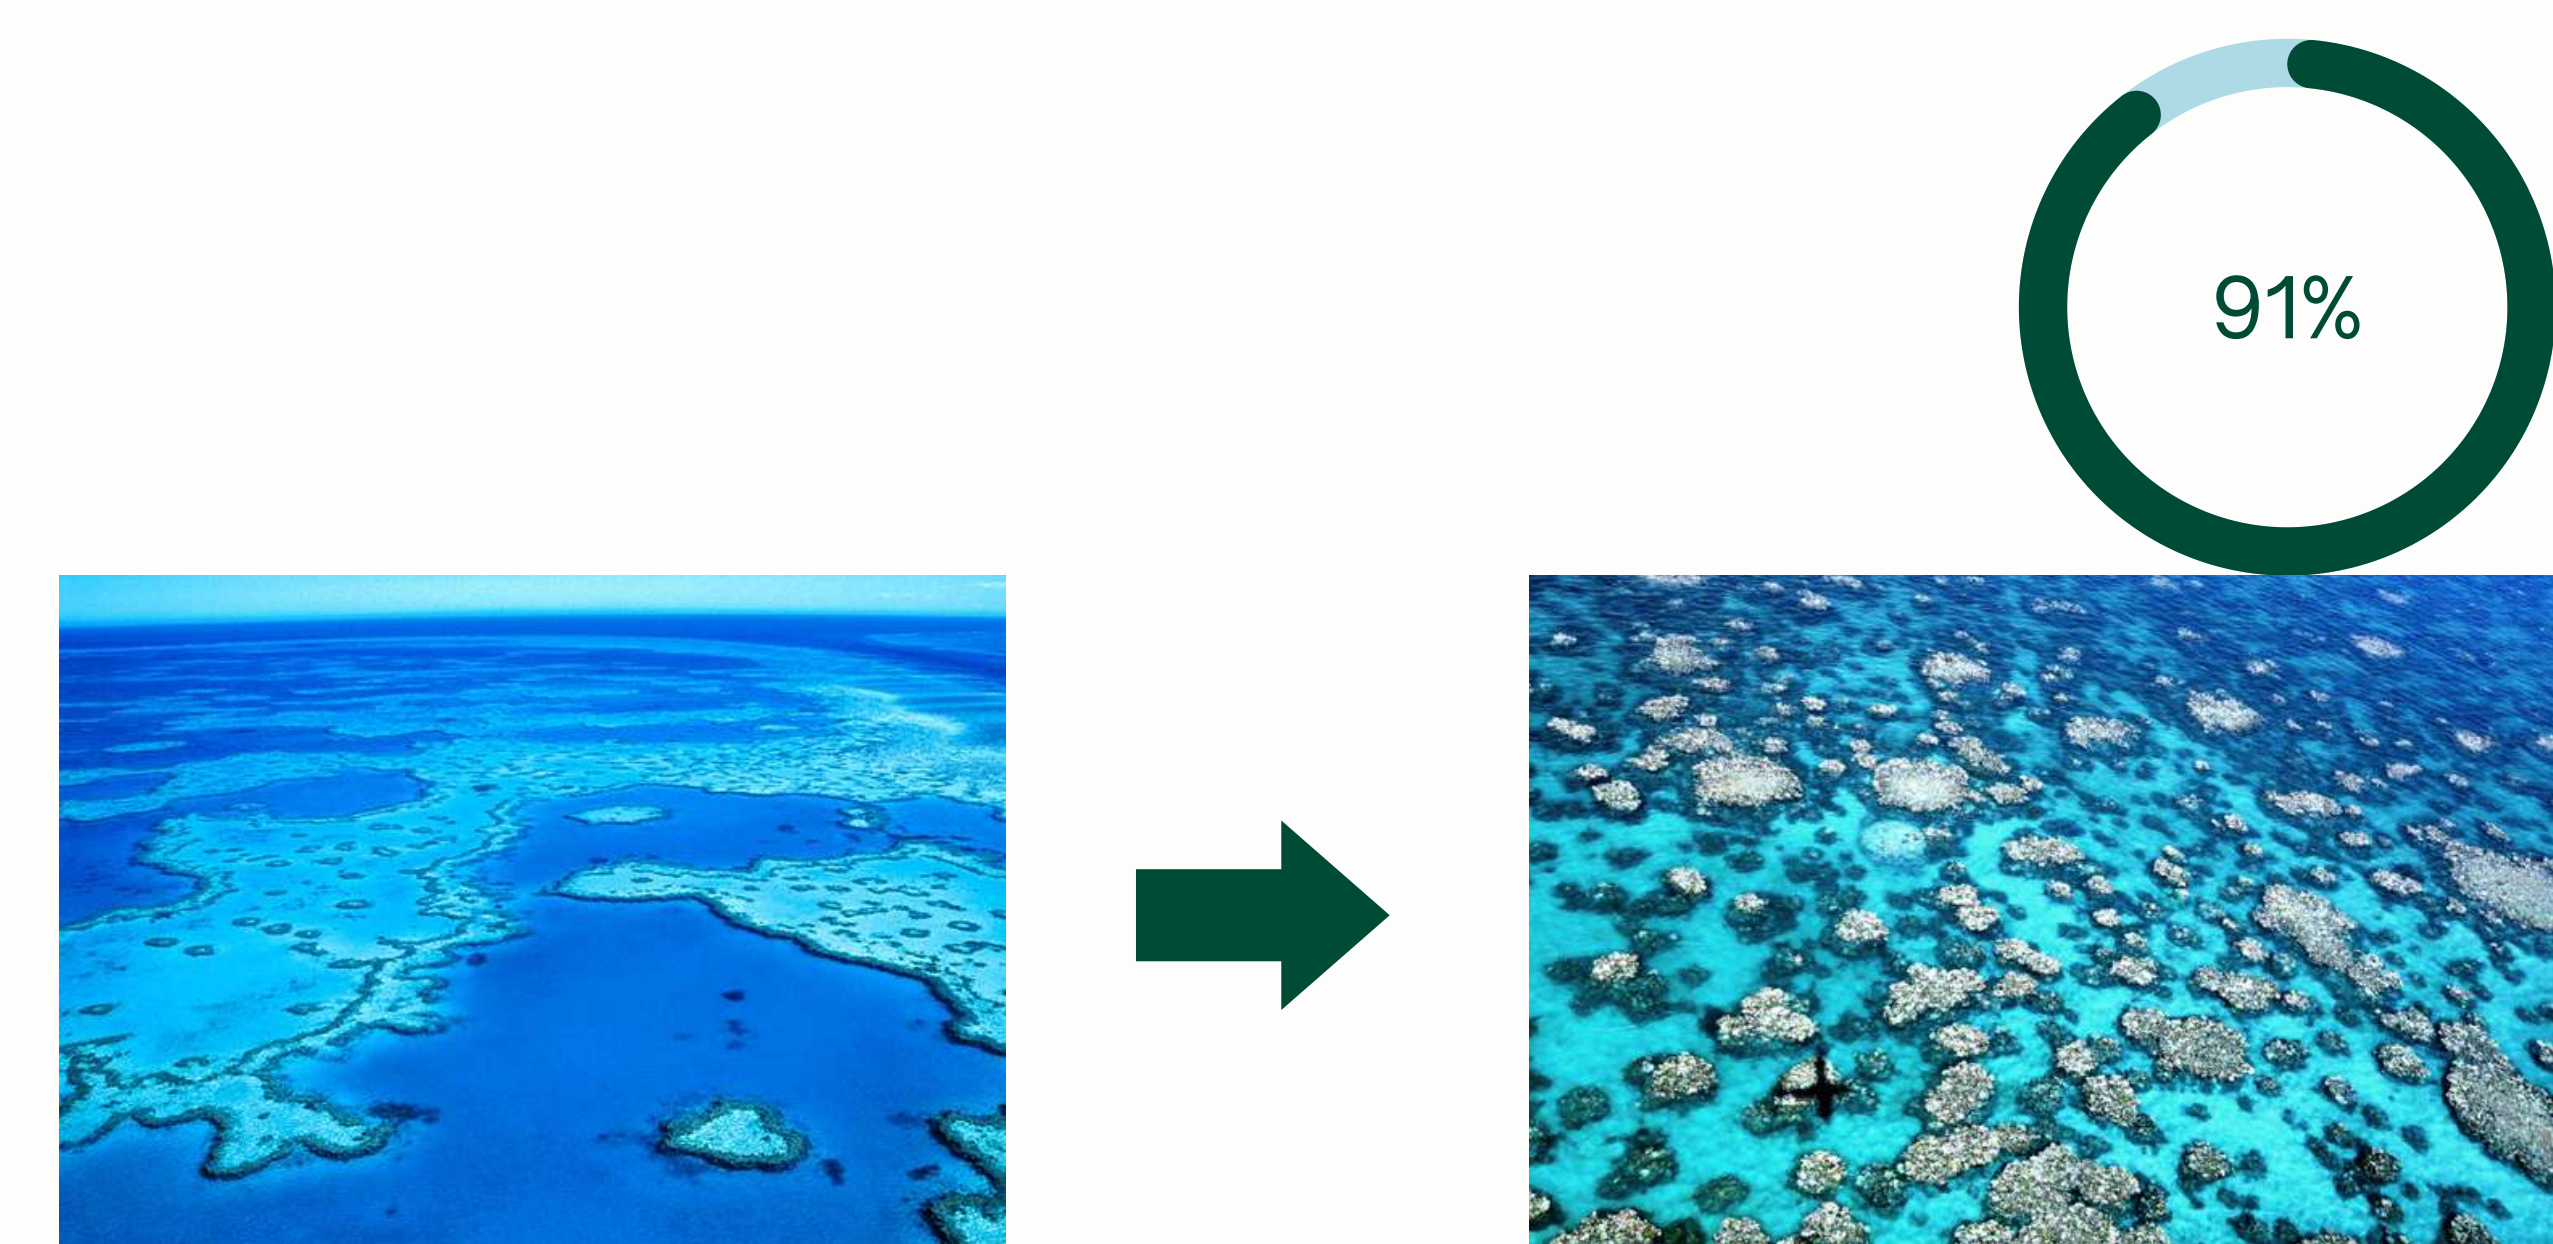

2. Plastic Imports from Australia by year

6. RATE OF QOL IN AUSTRALIA, VIETNAM AND CAMBODIA

3. PERCENTAGE OF CORAL REEFS (GREAT BARRIER REEF) UNDERGOING BLEACHING

7. WHAT WE CAN DO NOW TO SOLVE THE PROBLEM
