

# “The Best Use of Closed Schools”

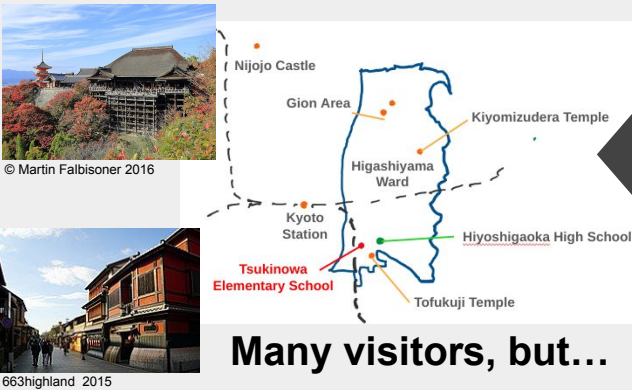

**-To Create a Town Where Everyone Will Want to Live-**

SGHN073 Kyoto Municipal HIYOSHIGAOKA Senior High School

## Ideal

**•To create Higashiyama-Ward, a town where everyone wants to live.**

## Higashiyama-Ward

## Current conditions

In 1990 Population 51,000  
In 2020 Population 36,000 **30% ↓**

Aging 0~14: 2,600 **↓**  
65~ : 2,000 **↑**

**Higashiyama-Ward would become a less lively town.**

## To create Higashiyama-ward, a town where people want to live.

- ①current residents want to continue to live
- ②who live outside of Higashiyama-Ward would like to live in Higashiyama-Ward.

→**The town must be attractive.**

### What can we do now

•Using closed school  Realize “地域共生社会”

### What is “地域共生社会”

People in the community can support each other at any time.  
A society that is comfortable to live in for all people.  
“ Including the elderly, the disabled, and the needy.”

## How I came up with the idea

- Participated study tour which held in Tsuno Town, Miyazaki Pref. with a population of less than 10,000.
- We thought how can we use closed school to encourage Tsuno Town.

## Research

Visited Tsukinowa Elementary School near Hiyoshigaoka High School to see how the closed facilities are currently being used.

## Our plan for the future

To listen to the voices of local residents regarding their thoughts on the facility, their thoughts on the community, and any problems they are currently having in their daily lives.

Realize “地域共生社会”  **Higashiyama-Ward will be the town where everyone want to live**
