

# What should we do to keep PUBLIC TRANSPORT SYSTEM?

~ Let's think the Future of public transport system and the issue of 2024 ~  
 SGHN088: Seikyo Gakuen High school

## Discontinuing Kongo Bus

...There are affected 400K Users

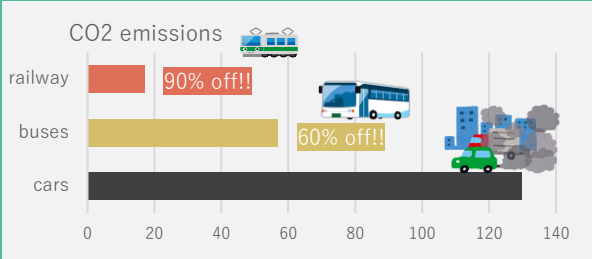

## The issue of 2024

...Meaning rack of drivers

And increase of running costs

Making cities sustainable and equality,  
 Reducing CO<sub>2</sub> emissions

## Two Solutions...

### 1. Ride-Sharing

It spreads particularly abroad!

Problems around the world...  
 The issue of driver's qualities

### 2. Demand Bus

After switching from community bus to demand bus  
 173% increase of passengers

In Kyoto, Minami-Yamashiro village...  
 Economic Benefits, More visitors of shopping center.  
 Decrease of running cost

## And more actions...

- Action by **government**.  
 ...Supporting Transport, Railway
- Cooperation of **local people**.  
 ...Transport requires more users.
