それ、ホントにSDGs?

SDGsウォッシュとは何か知っていますか?この質問にイエスと答える者は少なかった。私たちはこの現状からSDGsウォッシュを対策することへの社会的意義を見出した。これまでは注意を訴えるイラスト作成、大企業の取り組みの調査、インタビュー等を行ってきた。消費者に向けては認知度の向上を、企業に向けてはSDGsへの取り組みの改善の提案を行い、本当の意味でのSDGsの実現を目指している。

Kanazawa University Senior High School

Examine, Notice, and Diffuse the Ausement of SDGs.

According to our preliminary survey, there were few people who knew about the SDGs Washing. Following this situation, we found the social significance in addressing the SDGs Washing.

We have created illustrations calling attention to the SDGs Washing, surveyed the initiatives of large companies, and conducted some interviews. Our goal is to achieve the SDGs in the true sense of the word by raising awareness among consumers and offering suggestions for companies in order to improve their SDGs initiatives.

独りで食べているそこのあなた!
KO-SHOCK5と一緒に孤食をなくそう!

現在、日本の高校生の二人に一人が孤食の状況にあることを知っていますか。コミュニケーション機会の減少による社会性・協調性の欠如、栄養の偏りなどの問題が起っています。私たちKO-SHOCK5は、孤食問題に取り組む企業であるキューピー株式会社に実際に訪問しました。このポスターでは、キューピーで働く方々のお話をもとに、「子供・高齢者・個人」の3つの観点に分け、「3K」として解決策を掲げました。

How to address the undermined issue of eating alone

Did you know that one in two Japanese high school students have dinner alone? Solitude eating can lead to problems such as lack of sociability caused by less communication with others, as well as imbalanced nutrition. We, KO-SHOCK5 investigated the problems that associate with eating alone. To achieve this goal, we visited Kewpie, one of the most famous corporations in Japan that works on food issues, to gain information and a business point of view. In this poster, we suggest "3K", which stands for the Japanese translation of children, the elderly, and individual, as a solution to reduce solitude eating.
