

LET'S KEEP OUR SOCIETY READY FOR DISASTERS

1. Problem

Total financial damage from disasters

(million dollar)

(Japan Institute of Country-ology and Engineering)

(1) Evacuation kit → **Too heavy!**

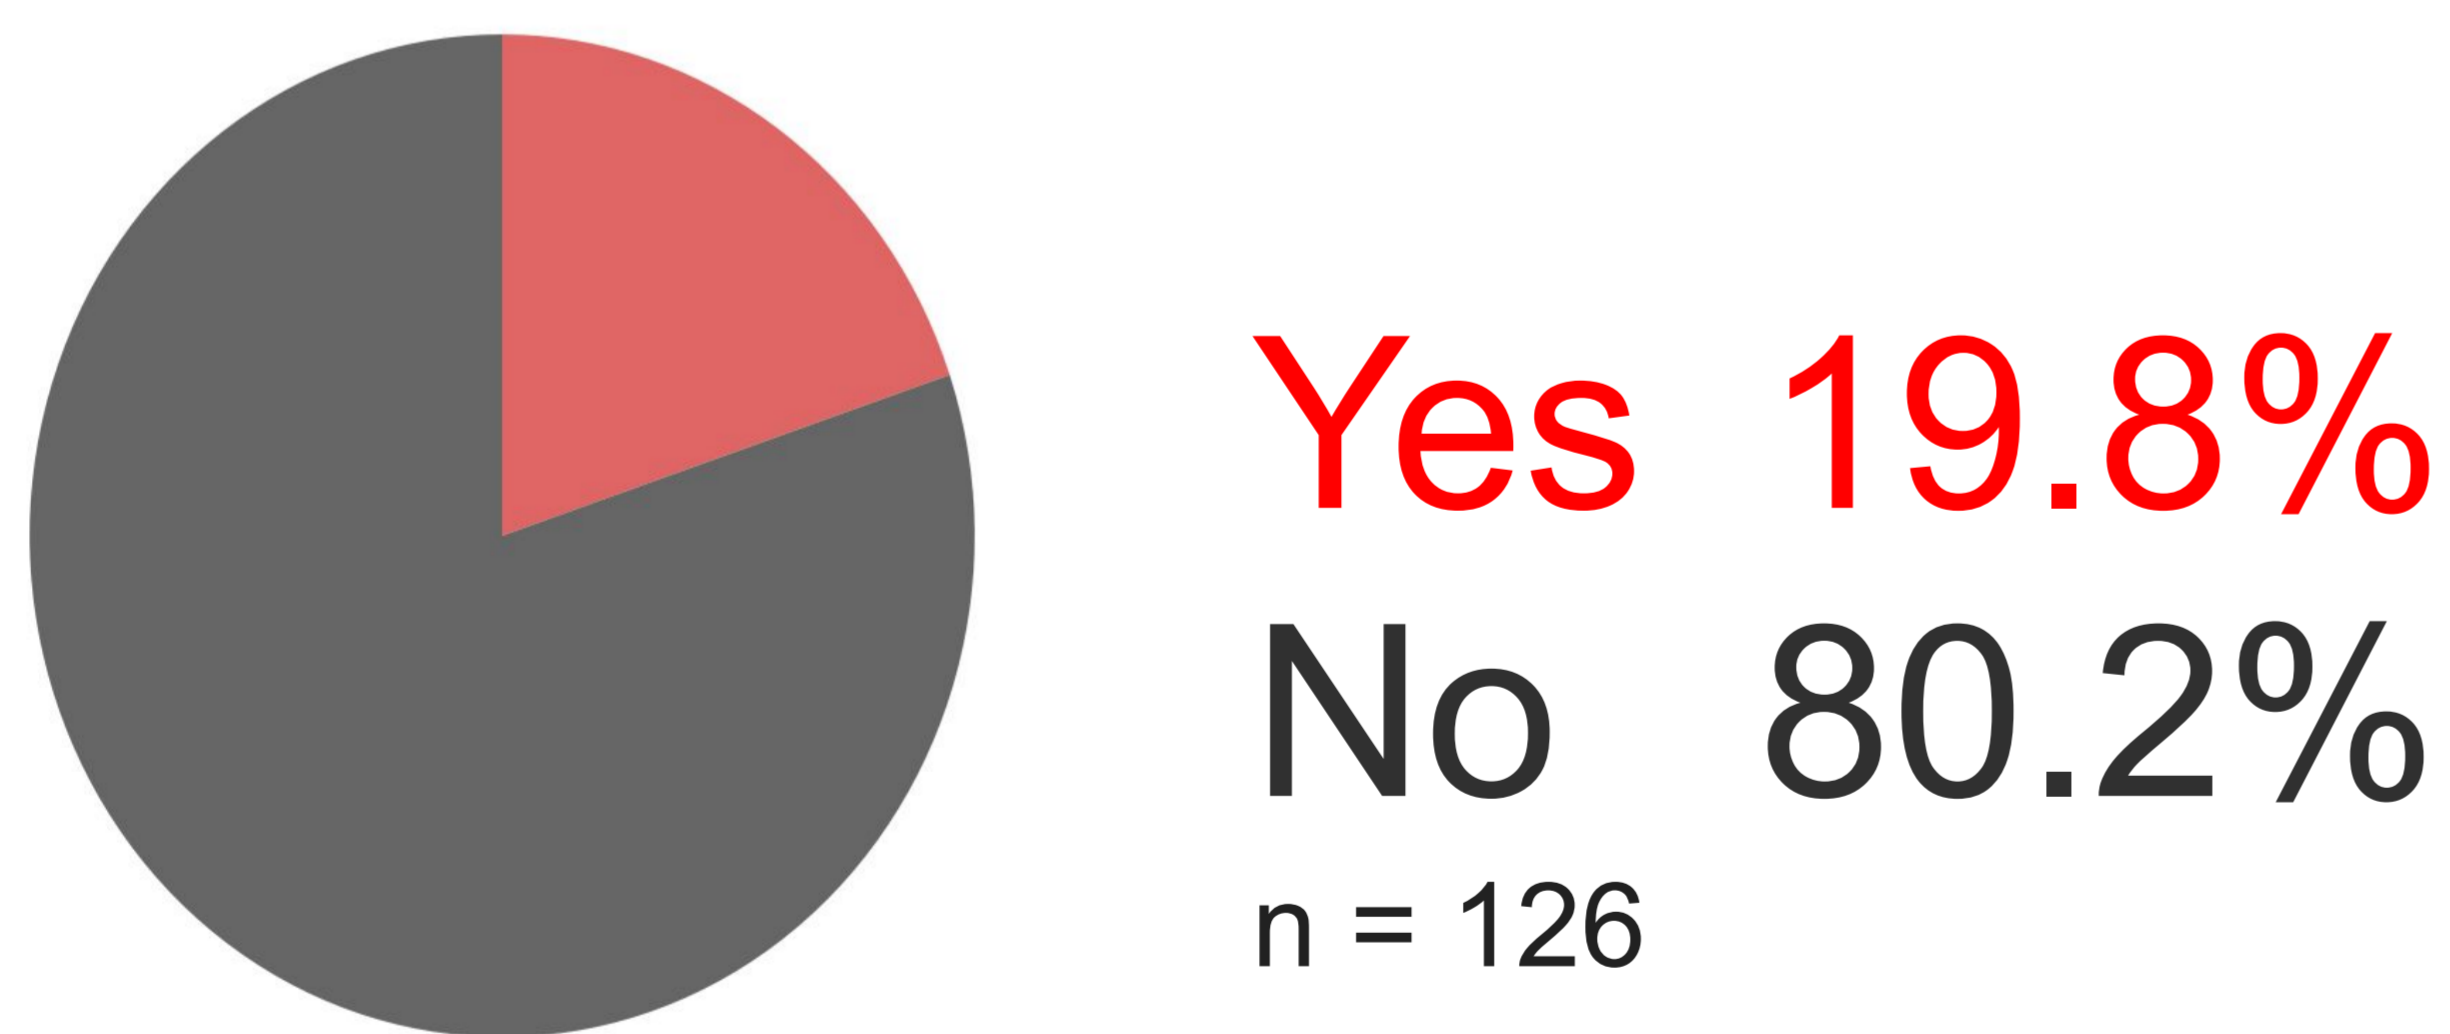

(2) Lack of **awareness** for disasters

Should we prepare an evacuation kit?

Do you have an evacuation kit?

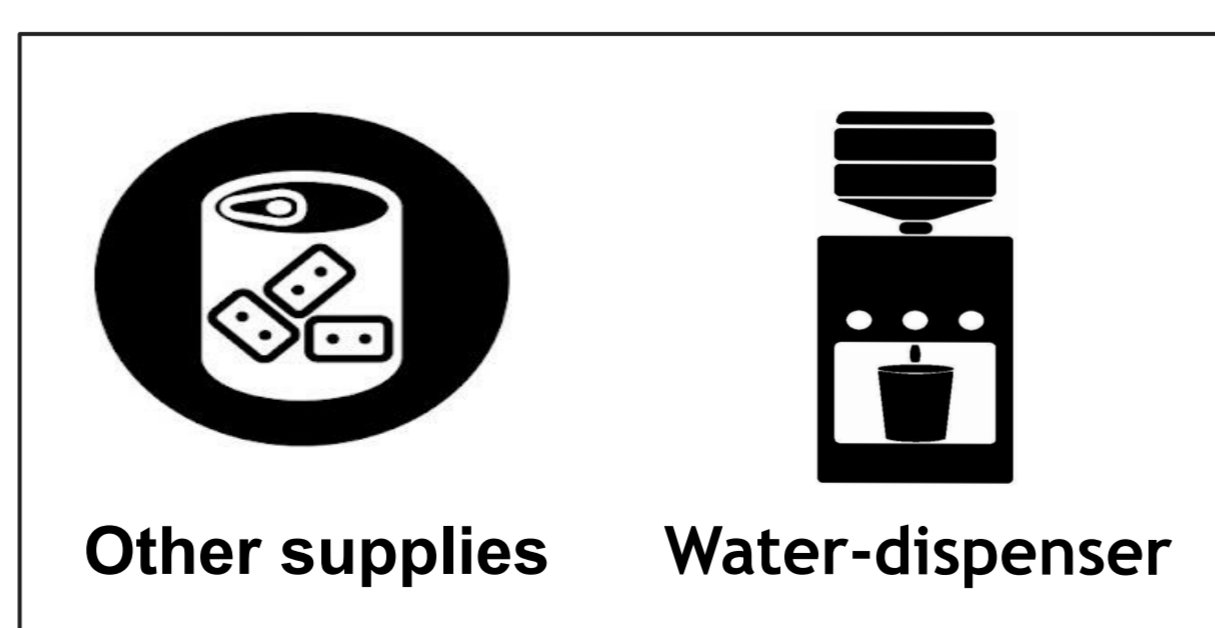

asked Akita Minami Senior High School students

2. Fieldwork

In Japanese Red Cross Junior College of Akita

Supplies come to shelter including water-dispenser

Most important point is

think about kits for ourselves

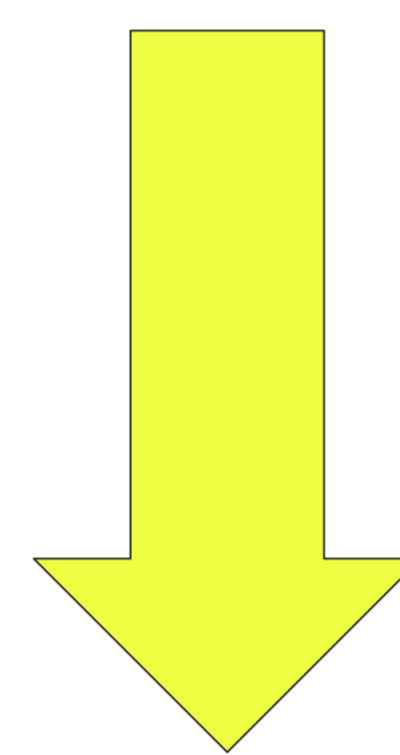

3. Suggestion

Website to assist making kits

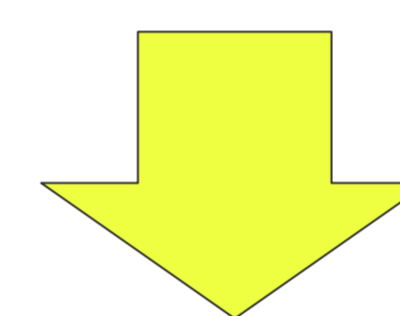

TripleB

= **Best Bug-out Bag**

Enter your characteristics

Shown recommended contents of kit

Weight is calculated

<3 advantages>

1 Popularization

Easier preparation
→ Gain more popularity

2 Optimization

Lighter evacuation kits
→ Easier to evacuate

3 Personalization

Personalized kits
→ Reduce our overall stress

add your comments

4. Conclusion

Think about what to carry as our emergency kits

Lead to **more self-awareness**

→ Help to make our society more prepared for disasters.
