

1. BACKGROUND

Evacuate public shelters

Disabled People's Needs

- ① Lack of information
- ② Lack of communication

Designated shelter
ex) school, public space

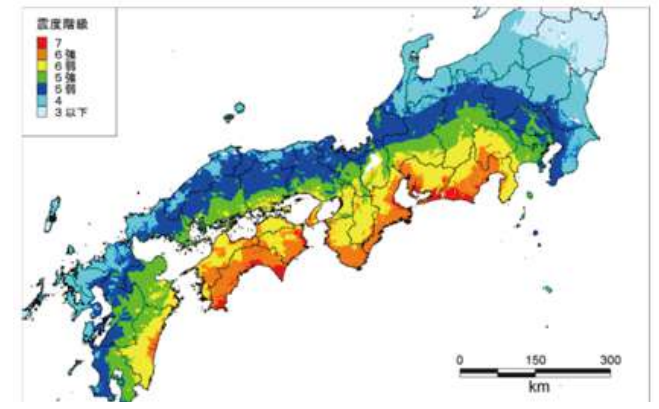

Welfare shelter
ex) welfare facilities

1 How can disabled people live in shelters safely and smoothly?

2. SURVEY

Nankai Trough Major Earthquake

The Probability of Earthquakes Occurring within 30 years

Nara prefecture's prediction

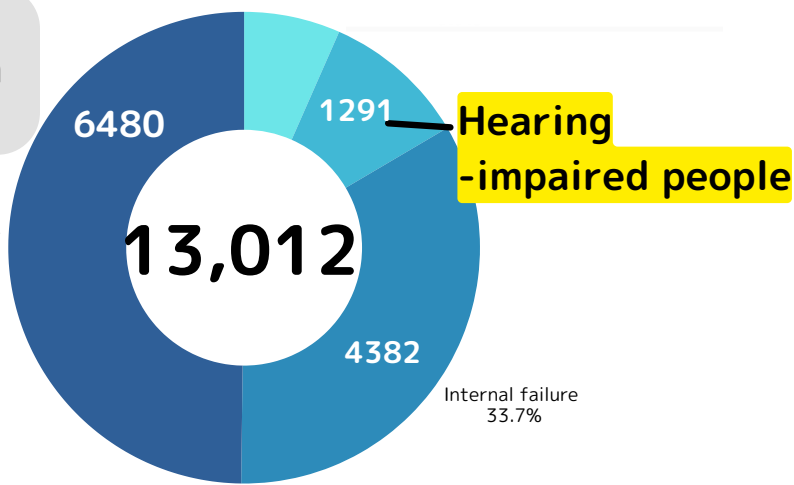

deaths	1,700
House collapses	4,7000

>> Our school might also become a shelter

2 What can we do for disabled people?

3. SITUATION NOW

Number of people with disabilities in Nara Prefecture

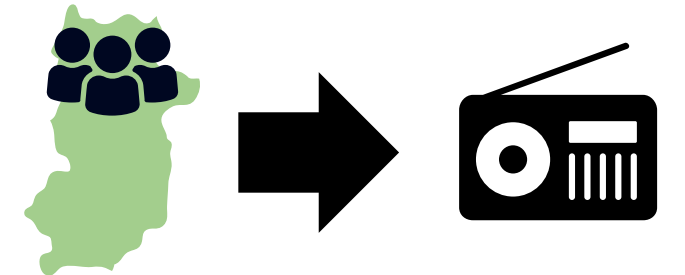

Our school's disaster stockpile

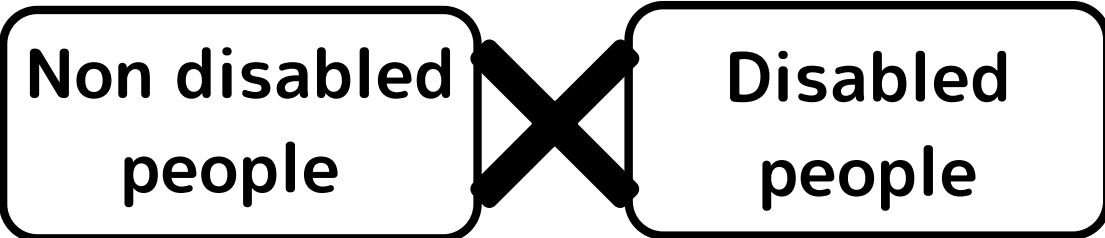

Lack of supplies and facilities for disabled people

Action in Nara City

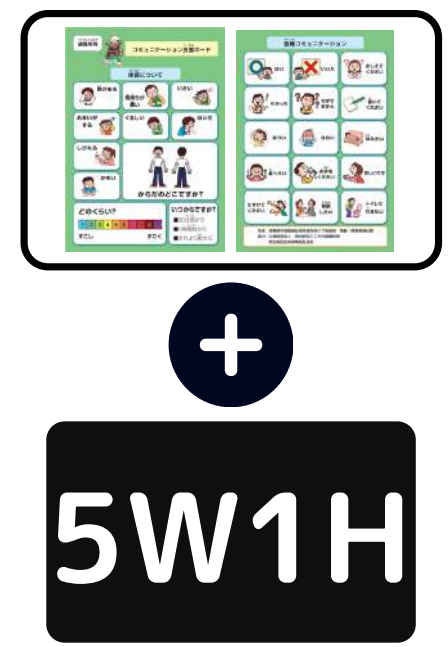

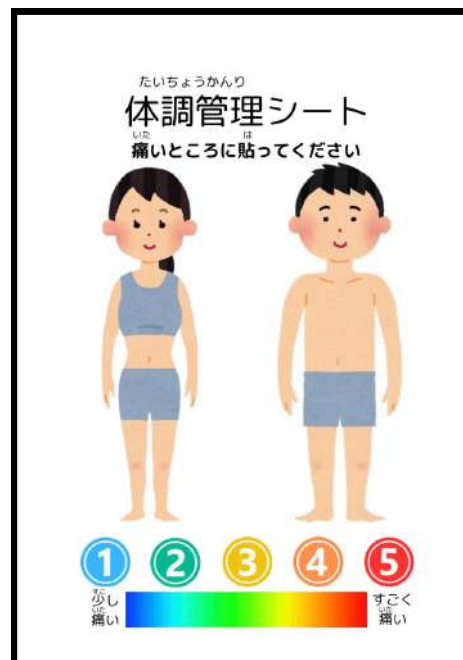

Distribute radios for them

4. METHODS

Creating a board to facilitate smooth communication

Sagamihara City

5. ACTIONS

1 Collaborate with Special Needs school engage with students and staff about this board
To make it more user-friendly and improve its quality

2 Distribute Communication Boards
Provide these boards to evacuation shelters across Nara Prefecture for use during emergency

3 Ensure Accessibility
Adapt products for people with other disabilities
ex) Physically disabled people
Visually impaired people
Create shelter where everyone feels safe and included
