

# To Think Hard About Our Planet

## - Engaging Youth in Environmental Awareness -

Research Question: < Education >

What can we do to get elementary and junior high school students more interested in environmental issues?

Since we didn't have much opportunities to learn on environmental issues and their solutions in our childhood, we conduct workshops as a extracurricular activities for school students. Our strength is the variation of ideas of 12 members.

### ①Fast-Fashion

How can we make our clothes last longer?

### ②Energy

Can the best method of power generation exist?

Our Main Theme

### ③Plastic in Daily Life

Where does plastic cause problems in daily life, and what can we do about it?

### ④Behind the Dinner Table

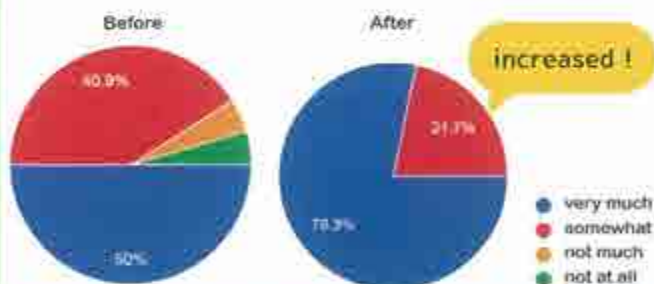

What are the advantages and disadvantages of soy meat?

## Achievements

- YIS school festival
- Taketomi Elementary School

How much are you interested in environmental issues?

## Future Prospects

- having workshops at more places  
 → local elementary and junior high schools  
 → after-school kids clubs
- more stories, impact, and communication  
 → introducing shocking facts during space travel and interactive quizzes
